

Faculty	Department	Level	Title	Description	Classification A	Classification B
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Social Issues and Governance	Multi-scale and interdisciplinary analysis of social issues: resource management, population growth, consumption, metropolization, climate change. Justice, inequality, equity, democracy, governance.	d-SU	edi
Fac. Arts et sciences	Géographie	CSUP	Cultures, societies and biodiversity	Interdisciplinary approach to society-environment relations. Local knowledge, construction, learning and transmission. Knowledge, science and power. Knowledge, know-how and representations. Taxonomies and popular classifications.	d-SU	edi
Faculté de médecine	Direction Médecine	1CYC	Contemporary medical practice in society 2	Contextualization of current medical practice in relation to various social and humanistic aspects, such as: cultural diversity, migration of peoples, illiteracy, First Nations health, chronic pain management and end-of-life care.	d-SU	edi
École de santé publique	Direction (Santé publique)	CSUP	Public health principles and issues	History, values and functions of public health. Biological, environmental and social determinants of health. Globalization, health inequalities. One-Stop Health and Ecosystem Approaches. Health measures and interventions.	d-SU	edi
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Landscape ecology	Positioning landscape ecology in relation to ecology. Landscape and resource conservation. Analysis of theoretical and methodological frameworks. Review of current and potential work.	d-SU	
Faculté Aménagement	Architecture	CSUP	History of conservation theories	Evolution of the concepts of heritage and conservation of the built and natural environment. Terminology. Conventions, declarations and charters. Choice of an appropriate intervention. Current conservation issues.	d-SU	
Fac. Arts et sciences	Anthropologie	1CYC	Ethnology and environment	Ethnological study of man's relations with his environment. Presentation of the main currents and works. Thematic approach with case study, reflection on the category of nature and the politicization of ecology.	d-SU	
Faculté Aménagement	Urbanisme/architecture paysage	1CYC	Plant ecology: theory and practice	Deepening of fundamental concepts in plant ecology. Knowledge of the major Phyto-ecological areas of Quebec from the perspective of environmental interventions inspired by the concept of sustainable development.	d-SU	
Faculté Aménagement	Architecture	1CYC	Architecture and construction 1	Introduction to the different types of structures and sustainable development. Introduction to the design and preparation of construction details common in the construction of a small building. Notes: A recommendation from the Canadian Architectural Certification Board (CACB) is required to qualify for this course as a free student.	d-SU	
Faculté Aménagement	Architecture	1CYC	Architecture and Construction 3	Knowledge of the principles of construction of a building with a wood, glulam, concrete and steel framework. Techniques of implementation oe<U+009C>works adapted to the local physical environment in a perspective of sustainable development. Notes: A recommendation from the Canadian Architectural Certification Board (CACB) is required to qualify for this course as a free student.	d-SU	
Faculté Aménagement	Architecture	1CYC	Architectural and urban heritage	Introduction to cultural and built heritage. Issues related to the conservation of built heritage and its relationship to sustainable development. Overview of professional practice and current conservation research.	d-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Fungal diversity	Biological and genetic diversity of fungi and molds. Importance in the environment and on-air quality. Economic and social issues. Microscopic and molecular identification methods.	d-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Bioethics	Foundations of ethics. Life, nature and humanity. Moral scope of science and technology. Ethical implications of the activities of biologists. Experimentation, biotechnology, genetic engineering, development and conservation. Equivalent course(s): MCB1040 and MCB3040.	d-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Debates in ecology	Critical examination of some contemporary ecological issues using relevant ecological concepts. Research and synthesis of scientific articles proposing contrasting positions. Written work and classroom presentation.	d-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Principles of biological control	Biological control as a preferred alternative to synthetic pesticides: theoretical foundations and methodological approaches, diversity of control agents, legislation, case studies.	d-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Biodiversity: role, threats, solutions	Importance of biodiversity for ecological services and resources. Climate change, habitat destruction, species invasion. Conservation in a context of sustainable development.	d-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Wetland ecology	Wetland types and ecological functions, hydrology and elemental cycles, physical and chemical processes, trophic interactions, conservation, restoration and development, management and legal aspects.	d-SU	
Fac. Arts et sciences	Chimie	1CYC	Environmental chemistry	Study of chemical processes in the atmosphere, water, soil and biosphere as well as disturbances caused by various human activities. Chemical pollution and toxic substances. Processing and control methods.	d-SU	
Fac. Arts et sciences	Sciences économiques	1CYC	Environment and Natural Resources	This course aims to familiarize students with the economic issues associated with the environment and pollution, ecology and the use of natural resources.	d-SU	
Fac. Arts et sciences	Sciences économiques	1CYC	Environmental Economics	Environmental Issues. Externalities. State interventions. Markets. Taxes. Standards.	d-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Sustainable development: issues	Critical analysis of development concepts; growth and environment. Institutionalization at various scales. Precautionary principles, prevention, polluter pays, intergenerational equity. Limitations and challenges.	d-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Water management: concepts and issues	Introduction to the legal, administrative and scientific aspects of water management, at local, national and international level. Concepts of integrated water resources management at the level of river basins. Case studies.	d-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Biodiversity management	Modalities for biodiversity conservation and management. Analysis of intervention tools at various scales, including international conventions. Case studies.	d-SU	
École de santé publique	Santé env. et santé au travail	CSUP	Modelling and environment	Different stochastic and deterministic models for the assessment of different environmental issues in a risk analysis framework for ecosystem and human health.	d-SU	
École de santé publique	Santé env. et santé au travail	CSUP	Environmental protection	Environmental quality control tools. Stakeholders, laws and various regulations. Functions and limits of penalties as a sanction. Awareness of legislative issues and restructuring opportunities.	d-SU	
Fac. Arts et sciences	Géographie	1CYC	Global spaces, local territories 1	Representation of the world. Fronts and borders. Globalization. Representations and territorialities. Mobility. Economic area. Geopolitical. Cities and centralities. Natural spaces. Agriculture and food. Environmental management.	d-SU	
Fac. Arts et sciences	Géographie	1CYC	Social and Population Geography	Different Theoretical Approaches. Statistical indicators and measurement problems. Qualitative and quantitative analysis. Indicators. Population-economic-environmental relations. Globalization and migration. Socio-economic space. Aging.	d-SU	

Fac. Arts et sciences	Géographie	1CYC	Geography of natural resources	Resources, management models, ecological goods and services, forest, water and energy resources: general, distribution, strategies, actors, state, geopolitics, public management. Remarks: Case studies.	d-SU	
Fac. Arts et sciences	Géographie	1CYC	Climate change	Historical perspective at different scales (local, regional, global) of climate change. Ecosystem and geosystem responses to these variations. Improvement of climate models in the light of paleoclimatic data.	d-SU	
Fac. Arts et sciences	Géographie	1CYC	Environment: critical approaches	Political ecology and critical geography. Environmental issues in agriculture. Forests or agriculture? Or both? Then how? Industrial agriculture monopolized and ecosystems destroyed. Food security and sovereignty.	d-SU	
Fac. Arts et sciences	Géographie	1CYC	Impact Studies	Environmental Assessments from a Sustainable Development Perspective. Quebec impact study process. Role and functions of the actors. Theory and methodology. Practical limitations and constraints. Remarks: Case studies.	d-SU	
Fac. Arts et sciences	Géographie	1CYC	Geography of health and environment	History, methodology, descriptive measures, construction of thematic maps, spatial analysis, population health status, risk concept, disease ecology, ecological changes, emerging diseases, pollution. Remarks: Case studies.	d-SU	
Faculté de médecine	Microbio. infectio. et immuno.	1CYC	Applied environmental microbiology	Microbial processes for controlling water and air pollution, waste, and degradation of xenobiotic products in contaminated soils. Alternative biotechnological processes in the agricultural, forestry, chemical and mining sectors.	d-SU	
Fac. Arts et sciences	Philosophie	CSUP	Economic and social justice	How to distribute social resources and goods, for example, income, access to education or health services? Review of contemporary responses.	d-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Biodiversity issues	Analysis of the progress of societies in the protection of threatened species, the creation of protected areas, the sharing of the benefits of biodiversity, the involvement of local communities in the application of the precautionary principle (summer school) Remarks: Special condition: the student can only register for one course symbol (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	d-SU	
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Social and solidarity economy	Responsible consumption and responsible citizenship. Cooperative movement. Social development. Different concepts of fair trade and social economy. Analysis of the strengths and weaknesses of existing initiatives.	d-SU	
Fac. de médecine vétérinaire	Pathologie et microbiologie	CSUP	Ecosystems and global issues in PCV	Studies of emerging and transdisciplinary concepts in veterinary public health. Analysis of the influencing factors and the global context in which the SPV operates at the regional, national and international levels. Major international issues.	d-SU	
École de santé publique	Santé env. et santé au travail	CSUP	Environmental toxicology	General principles of environmental toxicology. The toxic effects of human activity on fauna and flora. Balance of ecosystems. Regulations relevant to the field.	d-SU	
Faculté Aménagement	Urbanisme/architecture paysage	1CYC	Environmental Management	Application of ecological concepts to urban intervention. Integration of sustainable development values and constraints into urban planning intervention. Acquisition of an operational knowledge of the tools. Remarks: Urban planning and environmental constraints. Policies, programs and instruments for environmental management and quality control. Case study.	d-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Natural spaces: development and management	World Natural Heritage management issues. Solving the problems of the interface between human activities and natural environments from a sustainable development perspective.	d-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Ecological Modelling	Concepts, techniques, methods of ecological modelling. Applications to natural resource management, population growth models, dynamic interactions between species, spatial simulation, dynamic ecosystem analysis.	d-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Health and urban environment	Links between urban environment, urban planning and health: transport, food, sports facilities, pollution and housing. Perspective of different social groups. Health impact assessment in the context of urban planning strategies. Remarks: Development of the urban planner's knowledge and skills in designing the built environment to improve the health of populations.	d-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Environmental planning and urban planning	Ecosystem approach and ecological concepts. Functioning and challenges of the urban ecosystem. Acquisition of operational knowledge and tools to take into account the constraints of new environmental issues for urban planning. Notes: Notions, tools, intervention processes used by planners to ensure sustainable environmental planning. Components, cycles and elements of terrestrial, aquatic and air environments transformed by human activities. Prevention and mitigation instruments and actors involved in the implementation of these actions.	d-SU	
Faculté Aménagement	Design	1CYC	Eco-responsible packaging	Reflective and creative approach to designing eco-responsible packaging.	d-SU	
Faculté Aménagement	Design	1CYC	Sustainable products and services	Integration of ecological, social and economic components in design. Case studies, multi-criteria analysis and materials with lower impacts. Scenarios for offering innovative products and services.	d-SU	
Fac. Arts et sciences	École de travail social	1CYC	Social work and the environment	Introduction to the concepts, issues and challenges related to the involvement and role of social work in the environmental field. Relationship between environmental and socio-economic sustainability. Ecological and critical perspectives on development.	d-SU	
Faculté Aménagement	Design	1CYC	Environmental and sustainable systems	Deepening of environmental systems in indoor spaces. Application of sustainable development concepts and knowledge of lighting, acoustics and building systems in complex projects.	d-SU	
Faculté de droit	Direction Droit	CSUP	Expropriation and the environment	The legal regime for environmental protection. Contaminated land. Wetlands. Protection of shorelines, coastlines and flood plains. The power of expropriation. Expropriation formalities.	d-SU	
Faculté Aménagement	Direction Aménagement	CSUP	Development Elements	Concepts and Issues in Sustainable Development related to the Development Disciplines. Introduction to approaches, methods and tools for planning and programming management interventions.	d-SU	
Fac. Arts et sciences	Sociologie	CSUP	Sociology of the environment	Theoretical approaches to human-environmental relations. Examining contemporary issues such as natural resource governance, food systems, climate change and sustainable development.	d-SU	
Fac. Arts et sciences	Anthropologie	1CYC	Archaeology of human-environmental interactions	Archaeology and the human environment; natural, anthropogenic impacts, resilience, adaptive cycles, Anthropocene the changing place of humanity in its ecological context. Case studies from Plio-Pleistocene to the present day.	d-SU	

Fac. Arts et sciences	Géographie	1CYC	Ocean geography	Environmental foundations of seas and oceans. Ocean spaces and geopolitical issues. Economy of maritime and port transport. Resource exploitation. Conditions for the development of the Arctic and Antarctic. Note: Cyclical course.	d-SU	
Faculté Aménagement	Design	CSUP	Strategic designation of sustainable products		d-SU	
Faculté Aménagement	Design	CSUP	Professional eco-design mission	Professional intervention mission in a multidisciplinary team in a private or public organization on a pilot project of strategic eco-design, sustainable foresight or green shift. Research-intervention methodology.	d-SU	
Fac. Arts et sciences	Histoire	1CYC	History of the Environment in Canada	Introduction to Canada's Environmental History, Approaches and Methods. Topics covered: ecological imperialism, land use, climate change, city-hinterland relations, environmentalism, etc.	d-SU	
Faculté de droit	Direction Droit	CSUP	Law and sustainable development, energy and natural resources	Environmental law principles associated with the concept of sustainable development in a Quebec, Canadian and international context, with a particular focus on the energy and natural resources sectors.	d-SU	
Faculté de droit	Direction Droit	CSUP	Regulation: Corporate Social Responsibility and Sustainable Development	This course provides an analysis of the legal instruments that underpin social responsibility and sustainable development. It addresses social and sustainable development responsibility to innovation and technologies - private and public organizations.	d-SU	
Fac. Arts et sciences	Science politique	1CYC	Comparative environmental policies	Nature of environmental problems; emergence of the environment as a political issue; expertise, interest groups and public policies; economy and environment; collective action; current issues. Equivalent course(s): POL2170.	d-SU	
Fac. De l'éducation permanente	Direction Education permanente	1CYC	Global and environmental health	Factors influencing the health and well-being of populations: ecological, systemic and global perspectives. Health status of populations around the world. Environmental impact on health. Ethical dimensions.	d-SU	
Fac. Arts et sciences	Chimie	1CYC	Green chemistry: Eco responsible organic synthesis	Presentation of the principles of green chemistry (an Eco responsible practice of chemistry). Application of these principles to all aspects of organic molecular synthesis.	d-SU	
Fac. Arts et sciences	Anthropologie	CSUP	Environment, ontology and politics	Contemporary manifestations of the questioning of nature	d-SU	
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Cultures of Contemporary Japan	The course provides an overview and occasional analyses of the main arts, popular and media cultures, as well as Japanese cultural industries from 1945 to the present.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Culture and communication in Korea	Characteristics of Korean culture and Korean communication behaviors in different contexts of intercultural and international modernization and exchange.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Political and Economic Issues in East Asia	The aim of the course is to enable the integration of knowledge acquired between the various disciplines covered.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Contemporary Canadian Literature	Canadian Literature since 1970. Formal and conceptual innovations; issues of regions, nations, sexuality and race.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Literature and Transnational Feminisms	Exploring the relationship between the concepts of globalization and feminism and their representation in literary texts and films from several countries.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Literatures and Globalization	Analysis of the representation of globalization in English-language literature. Studies of diaspora concepts of cultural autonomy and the representation of new wars.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Women's Writing	Études des écritures de femmes après 1900.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Gender: Cultural constructions	Women and men in the world; feminine, masculine and other cultures; fabrication of sexual identity; psycho-sexual dimensions of the relationship to the community; gender ideologies and practices. Contemporary and historical examples.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Economic anthropology	Tribal societies: economic structures. Societies without surpluses: hunter-gatherers. Lineage companies and the development of operating reports. The problem of superstructure dominance.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Political anthropology	politics, inequality, hierarchies; politics and cosmogony; legitimacy; stateless societies; culture of the social contract; ideologies, states, post-colonialism; ethnography of the citizen; power, resistance and globalization.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Globalization, society, culture	Study of the effects of globalization on society, culture, identities. Relationship between culture and time, culture and space. Social and cultural pluralism.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Genetics, Epigenetics and Anthropology	Introduction to the study of the genetic mechanisms that define human nature and the epigenetic processes that generate individual and cultural variation.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Socio-cultural dynamics	Study of the dynamic aspect of socio-cultural phenomena. Critical analysis of theories and approaches to social change. Case studies in Western and non-Western societies.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Methods of ethnographic collaboration	Techniques and issues of collaboration in the context of the ethnographic field. Community research, power relations, prejudices and obstacles to understanding, co-interpretation, co-production of knowledge, ethical issues, case studies.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Contemporary Latin America	Anthropological analysis of the social and cultural reality of contemporary Latin America: comparisons of social movements and the emergence of Latin America as a political and cultural concept in the transnational context.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Contemporary India: ideologies and experiences	Cultural mosaics of South Asia; history, identities and post-colonialism; urbanization; demographic challenges; gender inequality; literacy; bureaucracy and citizen rights; regionalization and globalization; castes and minorities.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Neuroscience and Anthropology	The contribution of neuroscience to the understanding of social behavior and culture. Study of human behaviors in relation to their underlying neurobiological mechanisms, from an evolutionary and comparative perspective.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Native people of Western North America	Overview of the indigenous peoples of Western North America (basin, Rocky Mountains, plateau, northwest coast, plains, southwest): social and political organizations, mythology, art, religious cults, contact.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Languages and cultures of South Asia	Cultural and linguistic complexity of the Indian subcontinent. Relationships between language, religion, politics, aesthetics, ways of thinking, and between major sub-Asian civilizations and small vernacular traditions.	i-SU	edi
Fac. Arts et sciences	Anthropologie	CSUP	Religion, modernity and pluralism	Study of religious movements and trends associated with modernity in various cultural contexts: secularization, individualization of religious paths, globalization and religious pluralism.	i-SU	edi
Fac. Arts et sciences	Anthropologie	CSUP	Theories of encounter	Overview of theories of encounter in an intercultural context, philosophical and anthropological approaches, analysis of the ethnographic terrain, ethical and methodological aspects of intersubjectivity.	i-SU	edi

Fac. Arts et sciences	Anthropologie	CSUP	Anthropology, society, health	Anthropological approaches to health services and clinical situations in cosmopolitan urban environments. Clinical space as a social space. Biomedical, social, cultural, religious and ethical dimensions. Concepts and methods.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Interdisciplinary Arabic Studies	Analysis of current debates and theories on identity, modernity, migration, democracy. The issue may vary from year to year.	i-SU	edi
Faculté Aménagement	Architecture	1CYC	Study tour in architecture	In situ studies of outstanding achievements related to their physical and cultural context, with meetings and conferences of local specialists.	i-SU	edi
École de santé publique	Médecine sociale et préventive	CSUP	Bioethics and early life	Basic concepts. Legal context. Bioethics approach. Special themes: new reproductive technologies, genetic counselling, genetic manipulation, abortion, sterilization.	i-SU	edi
École de santé publique	Médecine sociale et préventive	CSUP	Bioethics and public health	Socio-ethical implications for policies and practices; analysis of underlying principles and values; risk communication, coercion, stigmatization, scientific uncertainty; health promotion in multi-ethnic communities.	i-SU	edi
Faculté de médecine	Pédiatrie	CSUP	Psychological aspects of genetic counselling	Courses to improve communication skills	i-SU	edi
Fac. Arts et sciences	Communication	1CYC	Media, sex and gender	Examining the theoretical, practical and political issues of sex and gender relations for communication. Media and processes of production, construction and performance of masculinity (s) and femininity (s). Notes: Courses generally offered every 2 years.	i-SU	edi
Fac. Arts et sciences	Communication	1CYC	Mass Media Audiences	Broad Approaches to Audience Research. Basic concepts. Knowledge of mass media audiences. Socio-demographic and cultural characteristics. International comparisons.	i-SU	edi
Fac. Sciences de l'éducation	Didactique	CSUP	Games and mathematical problem solving	The contribution of play to the development of reasoning and problem solving. Cultural and interdisciplinary perspective. Critical analysis and game design.	i-SU	edi
Fac. Arts et sciences	Démographie	1CYC	Sociology and population	Role of sociology in demography. Social organization and demographics: family, social stratification, minority groups, urbanization, religion, etc. Essay on behavioral theory and demographic change.	i-SU	edi
Fac. Arts et sciences	Démographie	1CYC	Immigration and integration	Sources and methods. Importance of migration in demographic processes. Ecological, sociological, economic and political aspects. Theories and politics.	i-SU	edi
Fac. Arts et sciences	Démographie	CSUP	Migration	Integration of migration into demographic analysis; concepts, methods, theories and models of internal and international migration; causes and consequences of migration; migration policies.	i-SU	edi
Faculté de droit	Direction Droit	1CYC	Economic theory of law	Economic theory of law: real rights, civil liability, principles of the law of obligations, procedure; consumer protection; State intervention in the market; inequalities; paradoxes of rationality.	i-SU	edi
Faculté de droit	Direction Droit	1CYC	Aboriginal Law	Description and critical analysis of Canadian Aboriginal law. Review of key Aboriginal claims.	i-SU	edi
Faculté de droit	Direction Droit	CSUP	Advanced Constitutional Law	Critical study of leading constitutional law issues: State and state structure, power sharing, centralization and decentralization, indigenous law, etc.	i-SU	edi
Faculté de droit	Direction Droit	CSUP	International law: refugees and migration	Main international instruments concerning refugees and migration; role of the Office of the United Nations High Commissioner; national policies and rules applicable to migrants and refugees.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Intercultural Journeys	Analysis and interpretation of the plurilingual and multicultural realities of the current Hispanic-American experience using the concept of intercultural. Consideration of the dimensions of identity, communication and knowledge.	i-SU	edi
Fac. Sciences de l'éducation	Admin. et fondements de l'éduc	CSUP	Efficiency, equity and quality in education	Concepts and measures of efficiency, equity and quality applied to education. Factors that can improve them in terms of institutions, education systems (Quebec, Canadian and foreign) and policies.	i-SU	edi
Fac. Sciences de l'éducation	Admin. et fondements de l'éduc	CSUP	School and society	Influence of social inequalities (income, gender, ethnicity) on education: the challenges for school actors and their opportunities for intervention.	i-SU	edi
Fac. Arts et sciences	Littératures lang. française	1CYC	History of women's literature	Research on women's writing in a historical perspective.	i-SU	edi
Fac. Arts et sciences	Littératures lang. française	1CYC	Social Imaginary and Literature	Literary and Social Links. Study of the relationship between literary texts and various social discourses: representation and imagination of politics, religion, science and technology, sport, etc.	i-SU	edi
Fac. Arts et sciences	Littératures lang. française	1CYC	Sexual Identities and Literature	Literature Study from the Perspective of Sexuation; Texts Playing with Social Categorizations of Sexual Identity. Work in gender studies, queer studies, research on the representation of gender identities in literature.	i-SU	edi
Fac. Arts et sciences	Géographie	1CYC	Cultural Geography	Basic Concepts. Cultural artifacts. Culture as a way of life, as meaning, as human activities, as power. Methodological approaches and qualitative methods appropriate for cultural geography.	i-SU	edi
Fac. Arts et sciences	Géographie	1CYC	Gender and International Development	Analysis of Gender Relationships and International Development in Geography. Gender inequalities in development. Territories of violence. Agriculture and modernization. Urbanization. Transnational migration. Participation and citizenship.	i-SU	edi
Fac. Arts et sciences	Géographie	1CYC	Geography of Southeast Asia	Geography of Southeast Asia in Asia. Tropics, forests, seas and mountains. Populations, peoples, ethnic minorities. Agriculture: itinerant, rice, commercial. Urban and industrial issues. Singapore, Indonesia and Malaysia. Fury of the earth.	i-SU	edi
Fac. Arts et sciences	Géographie	1CYC	Geography of Europe	The major contemporary geographical issues: environment, culture, society, economy and politics. Europe and the European Union. Multidisciplinary approach.	i-SU	edi
Fac. Arts et sciences	Géographie	CSUP	Latin America and globalization	Latin America: history and geography of imperialism, development and globalization: new challenges; contemporary social movements; geopolitics, regional development, territorial identity, public space.	i-SU	edi
Fac. Arts et sciences	Histoire de l'art	1CYC	Perception and work of art	Analysis of the creation and visual reading of art objects from different periods. Introduction to the phenomena of vision and the study of transcultural perception experiences.	i-SU	edi
Fac. Arts et sciences	Histoire de l'art	1CYC	Art, Gender and Sexuality	Study of the role of gender and sexuality in the work of art, its production and reception. Criticism of the masculinist assumptions of the discipline. Study of the dialectic between art and feminist, gay and queer movements.	i-SU	edi
Fac. Arts et sciences	Histoire de l'art	1CYC	Contemporary Art	Analysis of the U+0092>art today: contextualization of various issues related to post-colonialism, politics and identity fictions, gender, gender, U+0092>relational aesthetics, new media as well as new narrativities.	i-SU	edi

Fac. Arts et sciences	Histoire	CSUP	Immigration and Culture in the United States	The Role of Immigration in the Formation and Transformation of the American Nation. Analysis of the processes of integration of immigrants into society and the political and cultural phenomena generated by ethnicity.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Notions on cultural diversity	Introduction to various theoretical discourses on culture. Definitions of culture according to disciplines in the social sciences and humanities. Culture and political and economic issues. Remarks: Online course.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Concepts of international law	Introduction to the rules and sources of public international law. International treaties and international decisions. Main subjects of international law (States, peoples, minorities, international organizations, individuals, etc.). Remarks: Online course.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Culture, Diversity and Globalization	This course aims to understand the material and symbolic dimensions of culture in the era of globalization and to raise the question of identity spaces at the local, regional, national and international levels.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Youth from cultural communities	Intervention with youth from cultural communities and their families. Related issues: immigration, integration, schooling, discrimination. Ethical dilemmas; values and stereotypes. Interdisciplinary intervention, reference. Note: Portfolio integration.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Street youth	Definitions, explanatory theories. Extent and evolution of the phenomenon. Principles, practices and objectives of intervention strategies. Relational issues of the intervention. Ethical issues. Institutional and community practices; reference. Note: Portfolio integration.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Literature and human diversity	Analysis of novels that represent the interaction between several cultures (travel, immigration, colonization). Examination of philosophical theories about the foreigner, the primitive, the good savage, the Other.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Gender Theories	Analysis of theories of sexual gender in literature, cinema, new media, philosophy and cultural studies. Feminist, queer, gay and lesbian studies.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Cultural Studies	Development of cultural studies from the Frankfurt School to Cultural Studies and their transfer to North America. Relationship between literary and cultural studies.	i-SU	edi
Faculté de médecine	Direction Médecine	1CYC	First Nations Health	Become familiar with First Nations health issues. The course may include a variety of activities such as visits to Aboriginal communities, participation in a summer camp, presentations to community members and scholarly work.	i-SU	edi
Faculté de médecine	Direction Médecine	1CYC	Introduction to the clinical approach 1	Biopsychosocial and ethical integration of cardiac, pulmonary and nephro-urological problems. Physician's responsibilities towards multi-ethnicity. Abuse of power and professional incest. Patient education to manage the health problem.	i-SU	edi
École de santé publique	Médecine sociale et préventive	CSUP	Early Childhood Services	This course examines the use and evaluation of the impacts of early childhood services as a strategy to prevent inequalities in health in general and mental health in particular.	i-SU	edi
Faculté de musique	Direction Musique	1CYC	Introduction to ethnomusicology	History and theories of ethnomusicology. Evolution of the discipline from the Berlin school to recent trends in the anthropology of music.	i-SU	edi
Fac de sciences infirmières	Direction Sc. infirmières	CSUP	Multidimensional approach to grief	Grief theories: steps and resolution. Types of bereavement by family roles and causes of death. Multiculturalism and death. Funeral rites. Spiritual dimensions. Age-specific death education.	i-SU	edi
Fac. Arts et sciences	Philosophie	1CYC	Ethical problems	Analysis of the main concepts (law, obligation, well-being, equality...) and problems (euthanasia, social inequality, environment...) of contemporary philosophical ethics.	i-SU	edi
Fac. Arts et sciences	Philosophie	1CYC	Critical theory	Introduction to the critical theory of the Frankfurt School, as developed by its first and second generation philosophical members: Horkheimer, Adorno, Benjamin, Marcuse, Habermas.	i-SU	edi
Fac. Arts et sciences	Philosophie	CSUP	Economic Philosophy	Study of one or more of the following aspects: methodology, individual or social choice theory, social justice.	i-SU	edi
Fac. Sciences de l'éducation	Admin. et fondements de l'éduc	CSUP	Education: Construction of Ethnic Relationships	Analysis of existing relationships in Quebec, Canada and other societies between the dynamics of ethnic relationships and the evolution of training systems. Criticism of the debates on the function of the School in multi-ethnic societies.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Dynamics of African Societies	Interdisciplinary analysis of major economic, political, social, cultural, and demographic transformations in contemporary sub-Saharan Africa. Critical reflection on field research.	i-SU	edi
Fac. Arts et sciences	Science politique	1CYC	Contemporary political thought	Introduction and critique of the political philosophy of pluralism. Themes discussed: practical reason, justice, democracy, constitutionalism and multiculturalism.	i-SU	edi
Fac. Arts et sciences	Science politique	1CYC	Critical political thought	Examines the ideological foundations of the established powers and casts doubt on its own assertions. Marxist currents, Frankfurt School, feminism, postcolonialism and political ecology.	i-SU	edi
Fac. Arts et sciences	Science politique	CSUP	Transnational Relations and Globalization	Study of transnational phenomena and non-state actors in the analysis of international relations: globalization, social movements, non-governmental organizations and alter globalization networks.	i-SU	edi
Fac. Arts et sciences	Science politique	CSUP	Southeast Asian policy issues	Analysis of regional dynamics, including: colonial experiences, nationalisms, state-building, revolutionary movements, dictatorships, democratization, diasporas, economic integration, regional security and multilateralism.	i-SU	edi
Fac. Arts et sciences	Science politique	CSUP	Nationalism, ethnicity and conflict	Political sense of identity and approaches to studying it. Analysis of the diversity of interactions between groups and between them and the State: assimilation, competition, violence, management.	i-SU	edi
Fac. Arts et sciences	Science politique	CSUP	Citizenship and Identities	Analysis of theoretical approaches and contemporary debates on citizenship and the place of identities in politics. Theories and criticisms of multiculturalism, colonialism and contemporary populism.	i-SU	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	SADD students and service models	Characteristics of students with disabilities (intellectual, visual, auditory or motor disabilities) or with adjustment or learning disabilities. Pedagogical consequences and service models in special education.	i-SU	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	Social and ethnocultural diversity in primary school	Adaptation of educational intervention to the social, ethnic and cultural diversity of students. Characteristics of intercultural pedagogy. School-family partnership.	i-SU	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	CSUP	Ethnocultural heterogeneity in the classroom	Representations about ethnocultural heterogeneity and understanding of the elements that structure it Decentration process in the educational relationship. Psycho-pedagogical guidelines for the management of heterogeneity.	i-SU	edi

Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Citizenship and Development	Concepts. Solidarity citizenship. Participation and governance. Public education and mobilization. Communication and mobilization. Human rights.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Gender and Development	Concepts, Roles and Representations of Gender Relationships. Social and economic dynamics. Gender equality approach. Legislation. Issues. Methods of analysis and intervention. Results. Gender-sensitive indicators.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Education and development	Impacts of education on development. Education and poverty. Education systems and quality. Education and gender relations.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Health and Transculturality	Conception of Physical and Mental Health in Different Societies. Interference of cultural and religious traditions in the treatment of diseases. Transcultural approach.	i-SU	edi
Fac. Arts et sciences	Psychoéducation	1CYC	Evolutionary Perspectives	To promote evolutionary theories on the adaptive value of social and parental behaviors, emotions, cognition, language and psychiatric problems. Particular attention is paid to gender differences.	i-SU	edi
Fac. Arts et sciences	Psychoéducation	CSUP	Autism Spectrum Disorders 1	This course addresses the nature and prevalence of autism spectrum disorders (ASD), as well as the biological and social mechanisms responsible for their development.	i-SU	edi
Fac. Arts et sciences	Psychologie	CSUP	Child Abuse	Parental Abuse and Neglect: definitions and quantifications of the phenomenon, diversity of manifestations, consequences for the child, associated risk factors, explanatory models, curative and preventive interventions.	i-SU	edi
Faculté de médecine	Réadaptation	CSUP	Rehabilitation and psychosocial dimension	Rehabilitation research and psychosocial dimensions. Explanatory, motivational and behavior change models. Psychosocial variables and participation. Sense of self-efficacy, social norms and pressures, representations	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Employment and Salary	Functioning of the job Market. Job supply and demand. Salary theories. Segmentation, market imperfections. Economic issues in education and training. Discrimination and inequalities. Economic aspects of trade unionism.	i-SU	edi
Fac. Arts et sciences	Relations industrielles	1CYC	International human resources management	Evolution and role of HRM in multinational companies, HRM structures and strategies, expatriate management, international mobility programs, knowledge transfer, cultural difference management, comparative HRM systems.	i-SU	edi
Fac. Arts et sciences	Relations industrielles	CSUP	Compensation, equity and performance	Critical analysis of compensation systems. The State, individual and collective compensation management; their impacts on the equity and performance of individuals, groups and companies.	i-SU	edi
Fac. Arts et sciences	Relations industrielles	CSUP	Diversity, Immigration and Employment Equity	Equality and Discrimination. Principles for implementing employment equity and pay equity programs. Role of trade unions. Influence of industrial relations systems and public policies. Equality and economic restructuring.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	CSUP	Theories in Religious Science	Multidisciplinary Overview of Religious Studies. Origin and future of the sciences of religions in modern times. Anthropological, historical, hermeneutical, sociocultural dimensions of the theoretical approach of religion.	i-SU	edi
Faculté de médecine dentaire	Santé buccale	1CYC	Population approach in dentistry	Population approach in dentistry and population needs. Preventive and health promotion strategies, accessibility of oral health services.	i-SU	edi
Fac. Arts et sciences	Criminologie	1CYC	Social Movements, Violence and Security	The Typology of Political Threats and Violence. Their story. The institutional responses, their articulation and effectiveness.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Intervention and Collaborative Practices	Key Approaches in Mental Health. Collaborative practices (collaboration, partnership, interdisciplinarity, etc.) with service users, their families and caregivers from various settings, including mental health networks.	i-SU	edi
Fac. Arts et sciences	Sociologie	1CYC	Deviance, exclusion and social control	Issues and dynamics of social integration and regulation; problematic situations: excluded or marginalized populations, behaviors considered aberrant or unusual. The social production of marginal behaviors and status.	i-SU	edi
Fac. Arts et sciences	Sociologie	1CYC	Sociology of Quebec	Social organization and culture of the province of Quebec.	i-SU	edi
Fac. Arts et sciences	Sociologie	1CYC	Sociology of the Arab-Muslim world	Political sociology; Middle East and North Africa; political regimes; democratization; sociological approach to religious facts (Islam and politics; Islam and societies); mobilization and protest; orientalism.	i-SU	edi
Fac. Arts et sciences	Sociologie	1CYC	Ethnic relations	Ethnic social relations permeate society as a whole; they are one of the vectors of social relations and help to structure them. Concepts, theories and data on this subject will be examined.	i-SU	edi
Fac. Arts et sciences	Sociologie	1CYC	Social classes and movements	Study of social classes in the context of modernity. Overview of the main trends in the sociology of social movements. Conflicts and relationships of domination examined from contemporary social movements.	i-SU	edi
Fac. Arts et sciences	Sociologie	1CYC	Sociology of modernity	Confrontation of various sociological perspectives on themes of modernity, such as progress, individuality, secularism, universalism, in the fields of their materialization (e. g. the city, the family, religion, globalization).	i-SU	edi
Fac. Arts et sciences	Sociologie	1CYC	Social stratification and mobility	The study of inter and intra-generational social mobility. Principle of equal opportunities as a political issue. Mobility measurement tools. Modes of analysis of the distribution processes in the different social strata.	i-SU	edi
Fac. Arts et sciences	Sociologie	1CYC	Gender and sexuality relationship	Introduction to gender issues as a social relationship, symbolic operator, classification principle and category of analysis. Study of the links between sex, gender, sexuality and heteronormativity through feminist and postcolonial theories.	i-SU	edi
Fac. Arts et sciences	Sociologie	1CYC	Inequality, discrimination and citizenship	Social inequalities in terms of living conditions and social relations. Discrimination in the production	i-SU	edi
Fac. Arts et sciences	Sociologie	CSUP	Social determinants of health	Critical study of the social determinants of health and well-being. Study of the complex social processes that link life courses and health and produce social inequalities in health.	i-SU	edi
Fac. Arts et sciences	Sociologie	CSUP	Sociology of education	Education and social class ratios, education and politics, education and economics. Analysis of education as an ideological way of working.	i-SU	edi
Fac. Arts et sciences	Sociologie	CSUP	Inequality, discrimination and intervention	Unequal social relations: fundamental dimensions. Discriminations and prejudices. Trajectories and well-being. Theories of recognition and complementarity of knowledge. The redesigned intervention.	i-SU	edi
Fac. Arts et sciences	Sociologie	CSUP	Ethnic and Postcolonial Relations	Advanced course on ethnic relations (racism, nationalism, colonialism) Study of the concepts that constitute the field and their articulation with other relationships of domination through postcolonial, subordinate, feminist theories.	i-SU	edi
Fac. Arts et sciences	École de travail social	CSUP	Social link and contemporary society	Analysis of the socio-historical process of individualization and its effects on social link and identity. Reconstruction of the social bond in contemporary societies.	i-SU	edi
Fac. Arts et sciences	École de travail social	CSUP	Feminist Interventions	Origin, Theoretical and Methodological Foundations and Research on Feminist Intervention Patterns. Use of feminist skills and strategies. Individual and group modalities.	i-SU	edi

Fac. Arts et sciences	École de travail social	CSUP	Social Policies	Social Policies in Quebec and Canada: Reforms and Issues. Analysis and models of social policies and their redistributive effects and the fight against social exclusion and poverty.	i-SU	edi
Fac. Arts et sciences	École de travail social	CSUP	Ethics and Societal Dynamics	Analysis of the ethical dimensions of social service practice: social justice, distributive justice, human rights, citizenship, freedom, self-determination, individualism and social responsibility.	i-SU	edi
Faculté Aménagement	Urbanisme/architecture paysage	1CYC	Spaces and societies	Introduction. Urban societies and the social dimensions of urban phenomena. City as a social construction. Sociospatial dynamics, temporalities and mobility. Diversity of actors and their converging and diverging interests. Remarks: Roles and influences of actors in urban evolution. Addressing the urban and social relations. Crossing disciplines on the city. Socio-geographical and socio-anthropological aspects of the city. Dynamics of the countries of the North and South.	i-SU	edi
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	International urban planning	Evolution and specificities of the urban phenomenon and urban planning outside mature urban societies. Analysis of the challenges of production and management of infrastructure, housing and the urban environment in urbanizing environments. Remarks: Historical and theoretical perspectives. Case studies. International cooperation and urban planning. Comparative approach of local cultures and practices in urban planning. Circulation of models. Practice of urban planning in an intercultural context.	i-SU	edi
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Landscape theory and project	Main theoretical approaches in landscape studies. Identification of physico-spatial, socio-cultural and sensitive dimensions. Varied disciplinary, professional and cultural contexts.	i-SU	edi
Fac. Arts et sciences	Criminologie	1CYC	Integration and social reintegration	Address the concepts of integration, social reintegration, marginalization, exclusion, social tolerance and disaffiliation. Analysis of social inclusion and reintegration practices and tools.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Globalization, attributes and issues	Analysis of the attributes of globalization and national, regional and international issues arising from increased transnational interdependence in political, economic, social and cultural terms (summer school). Remarks: Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Contemporary Issues: The Americas	Transformations in one or more countries of the Americas on the economic, social, cultural and political levels, changes affecting their international politics and the impact of these developments on the rest of the world (summer school). Remarks: Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	i-SU	edi
Fac. Arts et sciences	Anthropologie	CSUP	Anthropology of Ethics	Examination of the foundations and debates in ethics. Analysis of the socio-cultural roots of norms, values and morals in different fields (including health) and ethical practices in different localities. Ethics and anthropological research.	i-SU	edi
Fac. Sciences de l'éducation	Direction Sc. de l'éducation	CSUP	Learning difficulties in a multi-ethnic environment	Linguistic and socio-cultural diversity in schools. Interventions, re-education and evaluations in this context for students with learning difficulties.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Rites and symbols	Classical and contemporary approaches to rituals: magic, healing, divination, charisms, etc. Symbolic and performative dimensions. Ethnographic approach to new rituals (spiritual and secular), ritualization of social life.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Migration and religious diversity	Social and religious behaviours of believers in a migratory context (Quebec, Europe, North America). Religious exchanges and hybridities between immigrants and the host society. Religious diversity, challenges of integration.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Hinduism: religion and culture	History, doctrines, concepts, philosophies, scriptural sources (Vedic Hinduism, classical Hinduism, devotional Hinduism). Culture and literature. Popular practices, norms and rituals. Reactions and transformations in modernity.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Introduction to Islam	History, beliefs, practices and diversity of interpretations of the Koran, Hadiths, Shari'a and Islamic law. Legal schools, mystical movements, liberal, Islamist, progressive. Gender relations and the challenges of (post-)modernity.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Interreligious dialogue	History and topicality of interreligious dialogue. Internal positions and developments of religions on religious pluralism. Issues, ethics and contribution in a secular and academic context. Practices of interreligious and intervisional dialogue.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Indigenous Spiritual Traditions	Worldview, Customs and Lifestyles of the Indigenous People of North-East America. Sociocultural portrait. Ethics. Symbols, rites and stories. Historical perspective on practices. Adaptation since the arrival of Europeans.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Religions and the public space	Theories of public, civil and private relations. Public expressions of the religious. Diversity management methods, law and reasonable accommodation. National models: official religion, collaboration and separation, pluralism, secularism.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Religions, violence and peace	Models of intervention and practices for peacebuilding from different worldviews: cultural, religious, spiritual and secular.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Sufism, mysticism of Islam	History, evolution, variety of beliefs, rituals and brotherhoods. Analysis of selected mystical figures and texts. Challenges in the face of (post-)modernisms. It is a question of universality and peace. Dialogue with other spiritualities.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Religions and sexuality	Historical perspective: implementation of the modern system of sexuality. Gender identities. Sex and gender. Sexual suffering and violence. Religious norms. Transversal and multidisciplinary view.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Legal framework of the intervention	Introduction to the legal framework of the intervention: consent to care, protection regimes, restraint, personal file and confidentiality, fundamental rights. Prevention of the risks of discrimination and abuse. Theoretical concepts, practical cases.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Intervene with people with ID	Life cycles	i-SU	edi

Faculté de médecine	Direction Médecine	1CYC	Immersion in Global Health	The objective of this course is to introduce students to global health and social medicine issues by offering them a varied practical experience including local activities and commitments as well as international involvement.	i-SU	edi
Faculté de médecine	Direction Médecine	1CYC	International Clinical Immersion	Awareness and practice of intercultural skills in the cultural and organizational aspects that influence the provision of care in clinical settings abroad. Global health challenges.	i-SU	edi
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of the visual arts and cultural diversity	Experience of the visual arts and cultural diversity; plastic language. Primary Fine Arts Program. Development, facilitation, and evaluation of learning. Resources for cultural education.	i-SU	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	Problems and prevention in preschool	Development and role of preschool educational structures in Quebec. Socio-economic, family, psychosocial and personal problems of students and preventive interventions in schools.	i-SU	edi
Fac. Arts et sciences	École de travail social	1CYC	Inequality and Oppression	Examination and analysis of the different spheres of social inequality, discrimination and oppression in Quebec and Canadian society.	i-SU	edi
Fac. Arts et sciences	École de travail social	1CYC	Social work and interculturality	Issues, policies and practices specific to the field of interculturality. Problems with situations integrating migration-related data. Presentation of different models and practice tools.	i-SU	edi
Fac. Arts et sciences	École de travail social	1CYC	Empowerment Practices	This course aims to develop knowledge and skills specific to self-managed approaches and group social action for intervention and research, in order to foster a greater sense of empowerment among populations.	i-SU	edi
Fac. Arts et sciences	École de travail social	1CYC	Social work, sex and gender	Critical reflection on the different gender and sex relationships, issues and struggles associated with them in Quebec and around the world. Main theories and interventions on gender.	i-SU	edi
Fac. Arts et sciences	École de travail social	1CYC	Social work and life cycles	Human development processes over the life course. Analysis of the interaction between the individual and the environment according to life cycles, contexts and living environments. Mechanisms of socialization, integration or exclusion.	i-SU	edi
Fac. Arts et sciences	École de travail social	1CYC	Social problems and institutions	Analysis of the role of institutional mechanisms and professional ideologies in the representation and reproduction of social problems. Issues and debates around stigmatization, labelling and exclusion processes.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Ethnolinguistic variation	Variability of registers and indexing of identity (nation, ethnic group, gender) and relationships (status, kinship, friendship). Language models and social structure. Marking of the interaction in the language. Case studies.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Anthropology of medical problems	Introduction to the theories of medical ecology, sociocultural epidemiology and semiology. Various medical problems are considered in their biocultural dimensions and from a comparative perspective.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Pluralism and citizenship	Diversity management and integration of minority communities in a comparative perspective. Civic, political and social integration. Role of institutions and actors. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Pluralism and citizenship	Diversity management and integration of minority communities in a comparative perspective. Civic, political and social integration. Role of institutions and actors. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes and	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Indigenous Achievements and Mobilizations	Examination of Indigenous culture in its artistic, cultural, political, historical and social dimensions based on a comparison of Quebec and Canada with other regions of the world. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Indigenous Achievements and Mobilizations	Examination of Indigenous culture in its artistic, cultural, political, historical and social dimensions based on a comparison of Quebec and Canada with other regions of the world. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes and submit a minimum of two written assignments.	i-SU	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	The adolescent and the school as a living environment	The school and the gymnasium as a living environment for adolescents aged 12 to 18. Characteristics and challenges of adolescent psychosocial development. Impact of family, economic, social, cultural and social factors on young people.	i-SU	edi
Fac. Arts et sciences	Géographie	1CYC	Polar Territories and Indigenous Societies	Understanding the issues in polar and sub-polar territories. Critical issues, challenges and opportunities facing Aboriginal people. Identity, knowledge, health, development, governance and natural resources. Research methodologies.	i-SU	edi
Fac. Arts et sciences	Histoire de l'art	1CYC	Contemporary Aboriginal Arts	This course examines the productions of North American Aboriginal creators in the 20th and 21st centuries, the means used to create space for expression and to deal with socio-political issues.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Introduction to Aboriginal Languages	Introduction to the study of Canada's Aboriginal languages through the exploration of dialectal diversity and written literature. Learning of linguistic and grammatical notions. The choice of languages studied may vary.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Indigenous Issues in the World	Introduction to the Study of Indigenous Peoples around the World. Multidisciplinary approach, especially in the social sciences and humanities.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Indigenous peoples in Andean countries	Aboriginal peoples in Andean countries, especially Peru, Bolivia, Ecuador. The course proposes to elucidate, in different national contexts, the various facets of indigeness through cultural, historical, social and political approaches.	i-SU	edi
Fac. Arts et sciences	Histoire	1CYC	Aboriginal Peoples, State and Society in Canada	An Overview of Cultural, Economic, Legal and Political Relations between Aboriginal Peoples, Canada and Quebec since the 1840s. Exploring the ways in which the parties have shaped and have been shaped by these relationships.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Psychological health and well-being in the workplace	Determinants and prevention of mental health problems in the workplace. Strategies for mental health intervention in the workplace. Professional reintegration. Practices to promote workplace health and well-being. Equivalent course(s): SST2310D	i-SU	edi

Fac. Arts et sciences	Littératures/langues du monde	1CYC	Language spaces	Introduction to the study of the relationship between the modern languages taught at the University de Montréal and the social facts of the territories where they are spoken. Various speakers are invited to draw a sociocultural and linguistic portrait of it.	i-SU	edi
Fac. Arts et sciences	Histoire	1CYC	Dominations and Resistance in the Arab World	This course, with a variable theme, aims to examine the forms of dominations and resistance that have affected and are still affecting the Arab world: colonization and decolonization, civil and interstate conflicts, political-religious tensions.	i-SU	edi
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of languages and other disciplines	Analysis and development of teaching and learning activities in the fields of languages and other disciplines (social universe, ethics and religious culture, arts). Critical analysis of departmental programs and educational materials.	i-SU	edi
Fac. Arts et sciences	Philosophie	1CYC	Feminist Philosophy	This course has three components: a historical perspective on women's representations, a reading of founding texts of feminist thought and a discussion of several themes at the heart of the Anglo-American feminist tradition.	i-SU	edi
Fac. Arts et sciences	Science politique	1CYC	Aboriginal Policy and Governance	Analysis of key issues surrounding the relationship between Aboriginal peoples and the state in Canada and elsewhere: colonialism, Aboriginal rights, treaties, self-government, Aboriginal conceptions of governance.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Culture and globalization	Deepening multidisciplinary knowledge of the field of culture in an international perspective through conferences given by international specialists. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching and submit a minimum of two written assignments.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Culture and globalization	Deepening multidisciplinary knowledge of the field of culture in an international perspective through conferences given by international specialists. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes and submit a minimum of two written assignments.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Endangered languages	Language-culture relationship; linguistic diversity and globalization; political domination of indigenous and minority languages; language transfer; bilingualism, multilingualism and inequality; linguistic revitalization. Case studies.	i-SU	edi
Fac. Arts et sciences	Géographie	1CYC	Geography of Africa	Socio-political organization. Democratization and territorial governance. Africa and globalization. Themes: international aid, conflicts and refugees, public health, metropolization, agricultural production, geography of natural resources. Note: Cyclical course.	i-SU	edi
Fac. Arts et sciences	Psychologie	1CYC	Rehabilitation assistance relationship	Biopsychosocial understanding of the person with a disability. Psychological processes encountered in rehabilitation, both for the patient and the counsellor. Principles of the helping relationship. Interdisciplinarity. Note: This course is exclusively for students of the Rehabilitation School of the Faculty of Medicine.	i-SU	edi
Fac. Arts et sciences	Géographie	CSUP	Geography of indigenous peoples	Current debates in indigenous peoples' geographies. Social, cultural, economic and political issues that have influenced, and continue to affect, Aboriginal peoples.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	CSUP	Religions, diversity and the public sphere	New configurations of religion in the public space, management of cultural and religious diversity: social, political, legal, ethical implications. Practices and case studies.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	CSUP	Interspirituality, intercultural and interreligious	Conditions and empirical analyses of interspiritual, intercultural experiences and interreligious dialogues. Distinctions between interspirituality, ecumenism and interreligious. Identity fluidities. Ecology, peace building.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	CSUP	Meeting of Indigenous Spiritualities	Meeting with Indigenous Spiritualities. Spiritual and ethical challenge. Decolonization. Indigenous spirituality in institutional settings. Theology and pastoral care. Pan-Indianism and non-indigenous. Case studies.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	CSUP	Theological Current	A striking current of thought in theology: Augustinism, apophaticism, Thomism, modernity and postmodernity. Discursive, contextual, feminist, postcolonial approaches. Theologies of reconstruction, trial, liberation, etc.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	CSUP	Practices, cultures, society	Inculturation, acculturation, exculturation of a faith or spirituality. Analysis of the recomposition between specific cultural practices and issues (ethnic communities, interculturality, age, communications, etc.). Collective dynamics.	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	CSUP	Contextual theologies	History and theory of contextual theologies. Liberation theologies and their current global future. Feminist theologies. Indigenous theologies. African theologies. Traditions of social justice. Ecological problem.	i-SU	edi
Fac. Arts et sciences	Anthropologie	CSUP	Indigenous peoples and world interpretations	Agencies, ontologies, religious systems, indigenous philosophies, ways of being in the world.	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Indigenous Literatures in English	Various textual expressions, the relationship between oral and written tradition, contemporary cultural resurgence, decolonization, gender and sexuality, alternative methods of reading and criticism to Eurocentric models	i-SU	edi
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Indigenous Stories and Media	Concept of storytelling in Indigenous studies. Orality and writing. Representation and interpretation issues. Role of the media and popular culture in relations between peoples. Tradition and modernity.	i-SU	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Language, culture and society in Asia	Analysis of the relationship between language, culture and society in one or more Asian countries. The impact of the structure of language on conceptions of the world and humans. Language levels and social relations. Linguistic variation.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Indigenous Cosmologies	Historical and contemporary contributions of the discipline to the understanding and recognition of the ontologies of the world's indigenous peoples. Founding narratives, classifications, epistemological and conceptual status of knowledge, ideologies and social practices.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Justice and cultures	Ideologies and justices in the world; the just and the unjust; religion and legal rituals; social norms and state systems; legal pluralism; tradition and modernist rationality; judicial bureaucracy and discrimination. Equivalent course(s): ANT1030.	i-SU	edi
Fac. Arts et sciences	Sociologie	CSUP	Intersectionality	Intersectionality as an analytical framework for understanding the complex organization of power in a society and as an emancipatory political praxis with a particular focus on the black feminist thought behind this approach.	i-SU	edi
Fac. Arts et sciences	Relations industrielles	CSUP	Labor and employment policy research	Study of theoretical and empirical developments in labor and employment policy research (national and international policies, labor force diversity, precariousness of work and income, inequalities, etc.)	i-SU	edi

Fac de sciences infirmières	Direction Sc. infirmières	1CYC	Nursing and health assessment 2	Integration of the overall assessment of the health of individuals and families from a population perspective into various health situations. Ageism prevention. Humanist model and patient-centered relationship. Reflective practice and portfolio.	i-SU	edi
Fac de sciences infirmières	Direction Sc. infirmières	1CYC	Nursing perspectives on health	Overall assessment of the health of individuals and families from a population perspective. Salutogenic, humanistic and reflective practice. Nursing role and care environments. Chronic conditions, social inequalities, health promotion.	i-SU	edi
Fac. Sciences de l'éducation	Didactique	1CYC	Math and Didactics Notions for FSL Teaching	Didactic and Mathematical Approach of Concepts Required for Teaching Mathematics to Students in Host and Immersion Classes. Vocabulary, cultural diversity and relationship to knowledge.	i-SU	edi
Fac. Arts et sciences	Psychoéducation	CSUP	Anti-sociality: assessment and intervention	Studies of the theories and factors explaining the emergence and withdrawal of anti-sociality. Inventory of effective assessment and intervention methods for adolescents and adults displaying antisocial behavior.	i-SU	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	Education, Aboriginal Issues and Perspectives	Introduction to Historical and Current Issues in Aboriginal Education; Identity and Linguistic Issues; Cultural Transmission; Experiential Learning in the Field; Holistic Approach.	i-SU	edi
Fac. Arts et sciences	Anthropologie	1CYC	Cultural Heritage in Central America	Study of Cultural Heritage in Central America. Research in a museum, archaeological and community context. Analysis of international institutions, indigenesness, and state policies in the management of cultural heritage.	i-SU	edi
Fac. Arts et sciences	Histoire de l'art	CSUP	Sexuality, gender and cinema	Studies and reflections on various theoretical approaches to gender and sexuality in film studies.	i-SU	edi
Fac. Arts et sciences	Sciences économiques	1CYC	Economic Inequality and Growth	Analysis of issues related to inequality, income distribution and economic growth. Review of trends over time and in different countries. Existing theories and empirical support.	i-SU	edi
Fac. Arts et sciences	Histoire de l'art	CSUP	Gender and Sexuality in the Arts	Study of the role of gender and sexuality in the production, reception and analysis of works of art, and the theoretical and epistemological issues raised by feminist and LGBTQ+ studies in art history and practice.	i-SU	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Inequality and community development	Study of inequalities and their impact on the health and well-being of individuals and communities. Strategies to reduce inequalities and best practices. Principles and impacts of community development. Ethical dimensions.	i-SU	edi
Fac. Arts et sciences	Histoire	1CYC	Otherness and Representations in Quebec (1800-1950)	Reflections on human diversity multiplied between 1800 and 1950, leading in their wake to multiple fascinations and relationships of domination. Study of the construction of otherness with the Quebec context as an anchor point	i-SU	edi
Fac. Arts et sciences	Institut d'études religieuses	CSUP	African Religious Currents	Study of African traditional religions, independent African churches and religions of the African diaspora, in an Afro descendant and migratory context. Thematic analysts: ancestor worship, healing, violence, evil.	i-SU	edi
Faculté Aménagement	Architecture	CSUP	Conservation of buildings and structures	Conservation process applied to buildings and types of buildings and structures. Building systems and techniques. Adaptation to contemporary standards of security, access and energy conservation.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Enhancement of urban areas	Urban heritage: historical monument, urban fabric and morphology. Problems, political, cultural and economic conditions for development. Land and financial strategies. Programs, education and disciplinary contributions. Notes: Familiarization with all urban conservation practices in developed and developing countries.	i-SU	
Faculté Aménagement	Design	CSUP	Problems in contemporary design	Critical study of the main theoretical and ideological post-functional models. Contemporary design issues: new technologies, eco-design, international dimension, etc.	i-SU	
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Irish Literature and Culture	Themes of national identity, decolonization and political crisis in the works of Irish writers of the past and present.	i-SU	
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Literature and Globalization	Study of the themes of globalization in literature and culture.	i-SU	
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Post-colonial Literatures in English	Analysis of various literary works produced in former colonies, such as Australia, India and Jamaica. Problems of canonicity, relations between the center and the periphery, and decolonization.	i-SU	
Fac. Arts et sciences	Anthropologie	1CYC	Elements of Ethnology	Presentation and discussion of the concepts necessary for understanding the various levels of organization of societies -- economic, political, ideological.	i-SU	
Fac. Arts et sciences	Anthropologie	1CYC	Biological variation	Evolution of primates and hominids of the plio-pléistocene. Heredity, genetic structures, biological variations and adaptations to the environment of human populations.	i-SU	
Fac. Arts et sciences	Anthropologie	1CYC	Urban anthropology	Anthropological approach to the contemporary urban world. Evolution of views on the city. Rural	i-SU	
Fac. Arts et sciences	Anthropologie	1CYC	Primatology	Intra- and interspecific behavioral diversity in primates and its proximal and functional causes: competition, altruism and mutualism in the context of food and reproduction; socio-ecology, socialization.	i-SU	
Fac. Arts et sciences	Anthropologie	1CYC	Current problems in ethnology	The social determinants of health, the specificity of health issues in migration, local health services, the coexistence of plural medicines and the encounter of plural systems of health values and norms.	i-SU	
Fac. Arts et sciences	Anthropologie	1CYC	Indigenous peoples of Latin America	Historical, social, economic and religious anthropology of Amerindian societies in Latin America. Contemporary political dynamics. Current problems related to a specific region.	i-SU	
Fac. Arts et sciences	Anthropologie	1CYC	Bioarcheology and settlement in Africa	African populations (over 30,000 years); interdisciplinary approach: bioarcheology, biology, archaeology, history, linguistics; research on human adaptation and lifestyles; history of health status; northern and southern hemispheres settlement.	i-SU	
Fac. Arts et sciences	Anthropologie	CSUP	Theories in medical anthropology	Key concepts (sign, meaning, action) of the currents of semiology and hermeneutics in health anthropology. Critical discussion of a massive return of health ecology and the application of anthropology to epistemology.	i-SU	
Fac. Arts et sciences	Anthropologie	CSUP	Landscape Archaeology	Landscape Archaeology recognizes the importance of interactions between humans and their environment. The perception of the environment, its role in landscape construction and social construction will be explored.	i-SU	
Fac. Arts et sciences	Anthropologie	CSUP	Biology of human behavior	The contributions of genetics, epigenetics and neuroscience to the study of human behavior and its interindividual and transcultural variations.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	1CYC	History and theory 1	History of the practices and thinking of landscape architecture, from the Renaissance to the present day. Highlighting the heritage of history in relation to current practices and their theoretical articulations.	i-SU	

Faculté Aménagement	Urbanisme/architecture paysage	1CYC	Knowledge of plants	Botanical, horticultural and basic landscape concepts: species identification and basic plant repertoire; cultural requirements and landscape characteristics of the main taxa used in landscape architecture.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	1CYC	Horticulture	Basic knowledge of pedology, physiology, ecology, plant pathology and entomology relevant to the design, planting and maintenance of landscapes that meet good environmental practices in rural or urban areas.	i-SU	
École de santé publique	Gestion / éval./ pol. de santé	CSUP	Health Intervention Planning	Presentation of concepts and methods specific to service planning (administrative perspective) and health programs (community health perspective) Description of analytical frameworks and application to a real planning project.	i-SU	
École de santé publique	Gestion / éval./ pol. de santé	CSUP	Public Health Management and Technology	Concepts of Public Health, Population Health Determinants. Management of health care, services and organizations. Management tools (planning, strategies, organizational design and operations management). Technology assessment and performance of organizations, health systems. Management of innovation processes.	i-SU	
Faculté de médecine	Biochimie/médecine moléculaire	1CYC	Ethics in biochemistry	Knowledge of the main rationales leading to ethical decisions. Examples of ethical issues related to biology	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Bioethics: origins, meaning, practices	Historical and institutional development. Definitions and designs. Moral reasoning in bioethics and the diversity of interpretations. Interdisciplinarity and methodological approaches. National and international trends.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Research Ethics	Protection of Human Subjects. Development. Regulatory texts. Nature of decision-making. Role and responsibility of research ethics committees. Current trends and challenges. Protection of animals.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Bioethics and the approach to death	Historical and sociological context. Legal framework. Psychological aspects. Specific topics: pain control, therapeutic persistence, refusal of treatment, euthanasia, suicide assistance, resuscitation. Sense of suffering.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Clinical Ethics	Nature and Foundations of Clinical Ethics. Decision-making in clinical ethics. The actors and processes of decision-making. The currents of thought. Clinical ethics consultation. The role of clinical ethics committees.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Bioethics for the health professions	Bioethical and methodological benchmarks to identify and analyze ethical issues, problems and dilemmas arising in various areas of health professionals' practice, and to provide solutions.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Contemporary theories of bioethics	Analysis of the strengths and weaknesses of the main theories used in contemporary bioethics research and practice (clinical ethics, research ethics, ethics and biomedical technology, health policy and public health).	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Biodiversity 1	Nomenclature and classification systems for living organisms. Diversity, structures and organizational types of Prokaryotes, Protists, Fungi and Plants. Practical work.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Biodiversity 2	Diversity, structure and organizational types of vascular plants and animals, invertebrates and vertebrates.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Notions of biology for teachers	Deepening the concepts underlying biology and their relationship to modern technological applications. Notes: This course is reserved for students in the Bachelor of Science and Technology Education program in secondary school.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Quebec Floristics	Plant harvesting, databases in biodiversity studies. General concepts of floristics. Quebec floristics. Plant conservation and the law of endangered species. Diagnose of the main families.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Entomology	Wide and general introduction to insects and their importance for humans. Genetics, physiology, ecology, evolution and classification of insects.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Ichthyology	Diversity (anatomy, genetics, classification), eco-physiology (metabolism, growth, mortality, reproduction), behavior (predation, competition, migration, nesting) and ecology (exploitation, impacts) of fish.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Herpetology	Comparative biology of amphibians and reptiles: classification, phylogeny, biogeography, morphology, physiology, ecology and ethology of the different orders. Current problems in herpetology.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Ornithology	Origin and evolution, morphology, plumage and moulting, classification, distribution, physiology, migration, song, ecology and behavior of birds. Introduction to techniques specific to the study of birds.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Population Genetics	Principles and Laws Governing Population Genetics. Characteristics, processes and conditions that influence and determine the variability, differentiation and genetic structure of natural populations.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Plant biotechnology	Plant transformation by agrobacteria and biolistics, control of gene expression by overexpression of the senses, antisense and ribozyme, genetic and metabolic engineering, current applications of biotechnology. Notes: Course limited to 15 students. Active in the winter term in odd years. Cyclical course not offered in 2015-2016.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Oceanography	The ocean as an ecosystem. Emphasis will be placed on processes that influence plankton productivity at both small (physiology	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Limnology	Ecosystem approach to freshwater ecology. Physical and chemical limnology: light, temperature, physical-chemistry, hydrodynamics. Biological limnology: plant and animal communities, trophic interactions, paleolimnology.	i-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Phylogenetic analysis	Theory and practice of systematics: reconstruction, validation and use of phylogenies in biogeography, ecology, conservation, and classification. Theoretical courses and practical work on computers.	i-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Molecular evolution	Mechanisms and principles of molecular evolution. Recent developments in population genetics, genomics, proteomics and phylogenetic analysis.	i-SU	
Faculté de médecine	Pédiatrie	CSUP	Ethical and legal aspects of genetics	This course enable students to be able to understand the ethical, legal and social dilemmas that may arise in genetic counselling by examining the main regulatory texts and socio-ethical issues.	i-SU	
Fac. Arts et sciences	Chimie	1CYC	Chemistry and Society	This course, which is intended for a non-specialized audience, covers the role of chemistry in different spheres of human activity, and different social problems in the solution of which chemistry is expected to play an important role.	i-SU	
Fac. Arts et sciences	Communication	1CYC	Influences of the media	Overview of theories and research on the role and influence of mass communication in societies.	i-SU	

Fac. Arts et sciences	Communication	1CYC	Innovations, technologies and societies	Elements of analysis of contemporary innovations for an understanding of the issues at the intersection of science, technology and societies. Conceptual frameworks of the innovation life cycle, from design to diffusion and use.	i-SU	
Fac. Arts et sciences	Communication	CSUP	Media and Society	In-depth analysis of theories on the role, influence and ownership of media. Application of these theories to contemporary issues related to the individual and society.	i-SU	
Faculté Aménagement	Design	1CYC	Space and individual	Basic concepts in environmental psychology: analysis and interpretation of needs among certain categories of users; discourse and theoretical reflections on the psychological effects of the environment on human behavior.	i-SU	
Fac. Sciences de l'éducation	Didactique	1CYC	The Humanities in Primary School	Humanities and Culture. The nature of the knowledge developed, its relationship to knowledge and its translation into a curriculum. Citizenship education.	i-SU	
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of religious culture	Orientation, issues, objectives and foundations of religious culture and its didactics. Curricula, teaching materials and school environment. Production and analysis of teaching activities and scenarios.	i-SU	
Fac. Sciences de l'éducation	Didactique	1CYC	Social sciences and humanities, primary special education	Social universe and nature of knowledge developed. Geography, history and citizenship education. Program, learning approach and resources. Adaptation of interventions to exceptional elementary school students.	i-SU	
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of biological sciences	Contents, concepts and barriers to understanding of secondary biology education. Protocols of experiments, explanation of knowledge; scientific knowledge, common sense with regard to biological phenomena.	i-SU	
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics and media for ECR	Critical analysis of software and websites related to ethics and religious culture. Production and distribution of multimedia documents. Scenarios for the pedagogical integration of the media.	i-SU	
Faculté Aménagement	Design	1CYC	Design and material cultures	Historical, theoretical and critical perspective on the roles and contributions of industrial design in the production of material cultures. Brand promises, globalization, media and emerging trends in the consumer world.	i-SU	
Fac. Arts et sciences	Démographie	1CYC	Demography of the countries of the South	The definition of development. Demographic phenomena in the Third World. Some particular aspects of current demographics. The relationship between population and resources.	i-SU	
Fac. Arts et sciences	Démographie	CSUP	Demography and health	Basic concepts and indicators in social epidemiology and demography	i-SU	
Fac. Arts et sciences	Démographie	CSUP	Fertility and family	Theories explaining fertility transition. Low fertility diets. Family systems. Evolution of conjugality and redefinition of the family. Family trajectories and living conditions of individuals.	i-SU	
Fac. Arts et sciences	Démographie	CSUP	Mortality, health and aging	Determinants, consequences and secular trends of mortality and health across the life cycle. Aging populations. Public health policy review.	i-SU	
Faculté de droit	Direction Droit	CSUP	International labor law	Critical analysis of international rules applicable to employees and collective bargaining; organization and role of the International Labor Organization; other applicable sources.	i-SU	
Faculté de droit	Direction Droit	1CYC	European Union law	History and development of European integration; EU objectives, institutions and decision-making processes; specificity of Community law; economic integration law; conflict resolution mechanisms; the Amsterdam Treaty.	i-SU	
Faculté de droit	Direction Droit	1CYC	International commercial transactions law	National and international standards governing commercial transactions between national and foreign residents. Study of the main transactions and the international arbitration procedure.	i-SU	
Faculté de droit	Direction Droit	1CYC	International Law of the Sea	Sources of the Law of the Sea. Areas under the jurisdiction of coastal states and internationalized areas. Problems related to the environment, scientific research and dispute resolution. Canadian Implications.	i-SU	
Faculté de droit	Direction Droit	1CYC	International conflict law	Studies of the norms of international law applicable in conflict situations, in particular with regard to the conduct of hostilities and humanitarian assistance.	i-SU	
Faculté de droit	Direction Droit	1CYC	Individual employment contract	legal relationship between employer and employee: sources, evolution, legislative powers. Nature, training, characteristics and termination of the employment contract. Mandatory content and labor standards. Rights and freedoms. Remedies.	i-SU	
Faculté de droit	Direction Droit	1CYC	Youth law and public policies	All public policies concerning young people in contemporary societies: protection, criminal justice, education, employment, social and cultural integration.	i-SU	
Faculté de droit	Direction Droit	CSUP	International Economic Relations	Study of the main principles governing the WTO system and analysis of economic integration treaties and their influence on transnational trade transactions.	i-SU	
Faculté de droit	Direction Droit	CSUP	International commercial disputes	Resolution of conflicts of laws and international jurisdiction of State courts. Study of alternative dispute resolution methods (negotiation, mediation, arbitration, etc.).	i-SU	
Faculté de droit	Direction Droit	CSUP	Globalization and emerging economies	Role of international institutions in legal and economic reforms, privatization of public enterprises, debt problems, foreign investment, labor and environmental issues.	i-SU	
Fac. Arts et sciences	Sciences économiques	1CYC	Economic History of the Western World	This course asks the following questions. How have the size of political units and the degree of decentralization of their economic life changed? What is the relationship between these changes and technological innovations?	i-SU	
Fac. Arts et sciences	Sciences économiques	1CYC	History of economic thought	Analysis of the moments in the history of economic thought that have proved to be the most significant for the understanding of the concepts and problems characteristic of the various trends in the current economy.	i-SU	
Fac. Arts et sciences	Sciences économiques	1CYC	Latin American Economy	Major milestones in the economic development of Latin America. Role of national and international economic institutions. Financial ratios associated with national debt management.	i-SU	
Fac. Arts et sciences	Sciences économiques	1CYC	International Economic Relations	Highlights of trade structure and world international relations, balance of payments, exchange rates, trade theories and policies, development aid policy, trade integration.	i-SU	
Fac. Arts et sciences	Sciences économiques	1CYC	International trade	Causes and structure of international trade: the influence of technologies, factor endowments and modes of competition. Trade policy: tariffs and quotas, trade liberalization and the formation of customs unions.	i-SU	
Fac. Arts et sciences	Sciences économiques	1CYC	Economic development	This course asks the question: To what extent can the market mechanism ensure the development of Third World countries? The internal structures of these economies, as well as their external relations, are analyzed in detail.	i-SU	
Fac. Arts et sciences	Sciences économiques	CSUP	Health Services Economics	This course is intended for students interested in specializing in health economics and those who want to apply microeconomic theory in a particular context (uncertainty, insurance, information asymmetry, regulation).	i-SU	
Faculté de médecine	Réadaptation	1CYC	Community accompaniment	Involvement in a community organization. Coaching of a person with performance and occupational engagement challenges. Development: self-awareness, empathy and social commitment.	i-SU	

Fac. Arts et sciences	Littératures/langues du monde	1CYC	Literature of the Conquest	Examination of the main features of the narrative discourse of the Conquest and colonization of Hispanic America (from Columbus to Ercilla and the Inca Garcilaso).	i-SU	
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Hispanic Female Writing	Introduction to the Female Literary Tradition in Latin America and Spain. Theoretical considerations on female writing. Contemporary manifestations and development conditions.	i-SU	
Fac. Arts et sciences	Géographie	1CYC	Earth System 1	Introduction to physical geography: Earth and the solar system, internal and external geodynamics, geomorphology, atmospheric and water environments, biosphere, anthropogenic pressures.	i-SU	
Fac. Arts et sciences	Géographie	1CYC	Geomorphology	Forms on the Earth's surface: their nature and development under the influence of weathering, transport and deposition agents. Role of climate in shape differentiation. Geomorphology and land use planning. Remarks: Laboratories.	i-SU	
Fac. Arts et sciences	Géographie	1CYC	Land in physical environment 1	Introduction to field techniques in geomorphology. Study of geomorphological processes and interactions that affect the geosystem. Influence of the last phase of the Quaternary: glaciation, deglaciation and post-glacial dynamics. Notes: This field takes place in the second half of August. Expenses are to be expected.	i-SU	
Fac. Arts et sciences	Géographie	1CYC	Land in physical environment 2	Overview of forest flora and soil classification. Learning of field methods of pedology and phytosociology. Elements of dendrochronology. Practical work from the perspective of toposequences and chronosequences. Note: This field takes place in the second half of August. Expenses are to be expected.	i-SU	
Fac. Arts et sciences	Géographie	1CYC	Transport and geographical networks	Evolution of transport systems, transformations in the organization of industry, factors influencing the development of networks and terminals and impacts of traffic flow. Note: Some practical work in the laboratory.	i-SU	
Fac. Arts et sciences	Géographie	1CYC	Land in human environment 2	Genesis of the metropolitan area. The different processes and dynamics underway. Description of the different landscapes and role of the actors. Several examples in the field. Remarks: This field takes place in the second half of August. Expenses are to be expected.	i-SU	
Fac. Arts et sciences	Géographie	1CYC	Geography of China	Environmental conditions and physical geography of China. Development of the company. Human geography. Transformation of the space. Globalization. Note: Cyclical course.	i-SU	
Fac. Arts et sciences	Géographie	1CYC	Introduction to the scientific process	Steps specific to the scientific process in geography. Currents of thought and approaches in geography research. Particularities of the geographical area. The contribution of geography to the study of environmental problems. Notes: To be eligible for the Honorary Pathway, the student must have an average of 3.5 after 45 credits.	i-SU	
Fac. Arts et sciences	Géographie	CSUP	Physical environments of rivers	Methodological problems: scale and measurement. Network analysis. Geometry of tree networks, efficiency and optimality. Sediment transport, flow models. Human actions.	i-SU	
Fac. Arts et sciences	Géographie	CSUP	Environmental biogeochemistry	Global biogeochemical cycles (carbon, nitrogen, phosphorus). Biogeochemistry of nutrients and trace elements in terrestrial and aquatic ecosystems. Response to environmental disturbances and changes.	i-SU	
Fac. Arts et sciences	Géographie	CSUP	Arctic-Alpine Environments	Glacier-associated geomorphic processes, permafrost and mass movement phenomena, cryogenic and nave-aeolian. The effects of climate change and the feedback associated with the exploitation of these environments will be addressed.	i-SU	
Fac. Arts et sciences	Géographie	CSUP	Dynamism and metropolitan mosaic	metropolitan dynamics in industrialized countries, in developing countries. Metropolitan mosaic: recent processes in central cities, suburbs, peri-urban and rural areas. International comparisons, perspective, sustainable development.	i-SU	
Fac. Arts et sciences	Histoire de l'art	1CYC	Art, culture and identity in Quebec	Analysis of the development of the arts in Quebec, based on historical approaches and identity issues, and according to the political, social and cultural contexts of the 19th and 20th centuries.	i-SU	
Fac. Arts et sciences	Histoire de l'art	CSUP	Problematisation of the artistic context	Study of the links between artistic production and social, political, economic and cultural structures and practices.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	Contemporary Europe	Overview, in the form of a synthesis, of the political, economic, social and other developments in Europe from the French Revolution to the present day.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	Southeast Asia since 1500	Introductory course on the history of East and Southeast Asian societies and their relations with the West since the 16th century.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	Economic history of Europe	Main characteristics and periodization of the economic development of Western Europe from the 18th century to the present day.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	France from 1870 to the present day	History of France from 1789 to the present day. Political, economic and social developments.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	Greek economy and society	Production, agriculture, trade, taxation, war, social classes and their evolution. Slavery, family, women's place and daily life.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	Peace and Peace in the 20th Century	The course takes an original look at the history of the 20th century by examining it through the history of peace and the emergence of pacifism, the development of international organizations and non-governmental peace initiatives.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	International Relations: Germany	Analysis of some political, economic and social problems and Germany's international relations from 1949 to the present day. Equivalent course(s): HST3276	i-SU	
Fac. Arts et sciences	Histoire	1CYC	Power and society in Latin America	Study of the forms and institutions in which power is expressed from the family to the State. Their evolution from the 18th to the 20th century. The relationship between the elites and the masses.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	Society and Power in the United States	Analysis of the relationships between social groups and the distribution of power. The rise of democracy.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	North American Economic History	Historical analysis of the major economic transformations of North American societies, from discoveries to the present day.	i-SU	
Fac. Arts et sciences	Histoire	1CYC	State, Society and Citizenship in Canada	This course aims to understand what a state is. It analyses the formation of the state in Canada; the forces and dynamics that ensure its existence and growth; and the evolution of the relationship between the state and civil society.	i-SU	
Fac. Arts et sciences	Histoire	CSUP	Modern Histories of East Asia	Evolution of historiographies in East Asian countries by examining and comparing colonial, national and postcolonial approaches (China, Japan, Vietnam, Korea).	i-SU	

Fac. Arts et sciences	Histoire	CSUP	France in the world since 1789	State and non-state interactions between France and the outside world since the Revolution. Economy and politics from an international perspective. Colonialism, postcolonialism, imperialism, globalization.	i-SU	
Fac. Arts et sciences	Histoire	CSUP	Germany in Contemporary Europe	Impact of the German fact on European and international security in the 20th century. Evolution of the German question in its political, economic and military aspects.	i-SU	
Fac. Arts et sciences	Informatique et rech. opér.	CSUP	Knowledge Processing	Artificial Intelligence, Information Security, Personal Data Economics, Ethics of Artificial Intelligence, Social Media, Distance Learning, Electronic Commerce, Intelligent Agents, Referral Systems.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Notions of international history	Introduction to international history and economic history. Key moments in the phenomenon of globalization since the 16th century. Introduction to quantitative methods in history and social sciences.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Notions of international political economy	Introduction to the study of the interactions between economics and politics at the international level. Top schools of thought and main concepts in international political economy. Main debates related to economic globalization.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Concepts of international relations	Main theoretical approaches and basic concepts in international relations: State sovereignty, security, interdependence, new international actors and governance in the context of globalization. Remarks: Online course.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	History of globalization	Historical analysis of the process of economic globalization since the 16th century. Industrial revolution and economic expansion. Dynamics of globalization and globalization between 1870 and 1939.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	International Political Economy	This course aims to analyze and understand the impact of the circulation and exchange of resources on unequal developed societies and economies in a context of globalization.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Governance and Globalization	This course aims to analyze the mechanisms of governance and identify international issues in the context of globalization.	i-SU	
Faculté de médecine	Kinésiologie / sc.act.physique	1CYC	Physical activities, sports and societies	Sociological understanding of physical and sports activities. Social determinants of physical activity and health; sociocultural analysis of physical activity; extreme sports; doping; violence in sport.	i-SU	
Faculté de médecine	Kinésiologie / sc.act.physique	CSUP	Physical activity and health	Acquisition of advanced knowledge on the roles of physical activity and fitness as determinants of health in different populations.	i-SU	
Faculté de médecine	Kinésiologie / sc.act.physique	CSUP	Exercise and metabolism	Recent work in biochemistry and exercise endocrinology. Exercise control mechanisms. Temperature control. Environmental and nutritional aspects.	i-SU	
Faculté de médecine	Kinésiologie / sc.act.physique	CSUP	Promotion of physical activity and health	Contemporary approaches to health promotion applied to physical activity: social marketing, social-ecological, community and community approaches, by living environment Development of a physical activity promotion program.	i-SU	
Faculté de médecine	Direction Médecine	1CYC	Introduction to clinical medicine 1	Introduction of the bio-psycho-social components of health problems. Communication and doctor-patient relationship. Case history and physical examination. Role and responsibility of the physician. Acquisition of clinical attitudes and skills through simulation; cardiopulmonary resuscitation.	i-SU	
Faculté de médecine	Direction Médecine	CSUP	General Expertise Medicine A	This course will cover the following topics: types of expertise, ethical aspects, consolidation and disability, assessment scales, pre-existing condition, causality, prognosis and therapeutic recommendations.	i-SU	
École de santé publique	Santé env. et santé au travail	CSUP	Toxicology and Epidemiology Basis	Methodological basis and interpretation of toxicological and epidemiological results promoting a critical approach and interdisciplinary thinking on environmental health.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	HIV: from epidemiology to intervention	Critical review of HIV epidemiology, prevention and treatment interventions, and the psychosocial and biopolitical impacts of these interventions through scientific controversies.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Public Health Practices	This course covers the principles underlying community health interventions and the selection of priority interventions. Major public health issues are presented and analyzed from these perspectives.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Strategies in Health Promotion and Prevention	Study of the main theoretical and practical approaches to health promotion and prevention interventions. Discussion and application of the principles of changing attitudes, behaviors and social change.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Urban Environment and Health	Introduction to knowledge, methodologies, key diagnostic tools, and effective and promising strategies for addressing the urban environment in public health. Integration of knowledge into practices.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Public Health Issues	Study of a Contemporary Public Health Issue: Principles for Continuous Monitoring of the Health Status of a Population.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Introduction to Public Health	This course covers the concepts of health and disease, measurement indicators and the main determinants of health. Essential historical trends and public health practices will also be addressed.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Health Surveillance	Courses that empower professionals to understand health problems, risk factors and determinants affecting health, measure the gap between different groups, and capture spatial and temporal trends.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Intersectoral-Health Partnership	This course addresses two key dimensions of the population approach: intersectoral collaboration and population participation, as well as collaboration for the development of integrated actions.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Community development	Basic dimensions of community development. Origins, foundations, issues, challenges and conditions for implementing community development in the exercise of population responsibility.	i-SU	
Faculté de médecine	Nutrition	CSUP	Nutrition epidemiology	Study of the role of nutritional factors in the risk of chronic and infectious diseases. Critical analysis of methods used in population-level studies.	i-SU	
Faculté de médecine	Nutrition	CSUP	International Nutrition	Food and nutrition problems in developing countries; their evolution and causes. Intervention strategies and programs: priorities, stakeholders, outcome evaluation.	i-SU	
Faculté de pharmacie	Direction Pharmacie	1CYC	Pharmacist, health professional	Introduction to health concepts and determinants of health; profession and professionalism; drugs and society; membership; introduction to pharmaceutical care.	i-SU	
Faculté de pharmacie	Direction Pharmacie	1CYC	Pharmacist and community	Health care systems and public health; assessment and improvement of drug use; intervention planning; drug access programs; Pharmacoeconomics; ethics; pharmacovigilance.	i-SU	
Fac. Arts et sciences	Philosophie	1CYC	Evolution thought and values	Introduction to some themes of the philosophy of biology. The contribution of evolution theory to the understanding of human behavior, social structures, ethics and environmental issues.	i-SU	

Fac. Arts et sciences	Philosophie	1CYC	Fundamental notions of ethics	Introduction to the fundamental notions and main theories of moral philosophy in order to form critical reflection on contemporary ethical issues, particularly in the field of bioethics.	i-SU	
Fac. Arts et sciences	Philosophie	1CYC	Philosophy of the humanities	The epistemological foundations of critical sociology and the sociology of knowledge, from the Frankfurt School to the Edinburgh School, will be subjected to critical examination from a constructivist point of view.	i-SU	
Fac. Arts et sciences	Philosophie	1CYC	Ethics of International Relations	Introduction to classical and contemporary issues in the field of ethics of international relations.	i-SU	
Fac. Arts et sciences	Philosophie	CSUP	Philosophy of biology	In-depth study of epistemological issues on the structure of the theory of evolution, the methods of evolutionary biology and its related disciplines, and the biological sciences in general.	i-SU	
Fac. Arts et sciences	Philosophie	CSUP	Ethics and social philosophy	Contemporary theories of equality. Equality, justice, difference, freedom. Controversies inherited from the philosophy of the Enlightenment.	i-SU	
Fac. Arts et sciences	Philosophie	CSUP	Problems in international ethics	In-depth examination of the philosophical issues of certain problems in the field of the ethics of international relations. Analysis and discussion of selected texts.	i-SU	
Faculté de pharmacie	Direction Pharmacie	CSUP	Community pharmacy care: self-medication	Updating knowledge of drug therapy used in self-medication from the perspective of community pharmaceutical care.	i-SU	
Faculté de pharmacie	Direction Pharmacie	CSUP	Community pharmacy care: dermatology	Updating knowledge on pharmacotherapy of dermatology-related diseases from the perspective of community-based pharmaceutical care.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	International Crisis Management	Introduction to crisis management theory, including mediation, negotiation and conflict resolution, and practical application in a case study and simulation game (summer school). Remarks: Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Politics and economics	Introduction to the fundamental concepts and instruments of economic analysis. Scope, relevance and limitations of economic analysis and theory for policy analysis.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	International Politics	General and Partial Theories. Definitions and typologies of States and international organizations. Diplomatic, legal, strategic and economic dimensions of inter-State relations. Notes: Ineligible course for students in political science programs.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Theories of International Relations	Social Sciences and International Relations. Different approaches and schools. Models of the structure, functioning and transformation of the international system. Confrontation of basic assumptions and empirical research.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Arms control	Arms control negotiations and disarmament debates in the United Nations. Analysis of peace movements, their development and impact.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Sociopolitics of Armed Conflicts	The aim of this course is to review the theories concerning the endogenous and exogenous causes of conflicts and to situate the phenomenon of organized violence in political analysis.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	North-South relations	Political analysis of the evolution of relations between developed and developing countries. Issues of North-South cooperation and conflict. Studies of theoretical debates on the subject.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Identities and conflicts in Eurasia	State and nation-building in the postcolonial and post-communist context. Nationalism and nationalizing states. Majority-minority relations, identity conflicts. Eastern Europe, Central Asia. Theories, debates and case studies.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Foreign policy: major powers	Foreign policy theory and conceptual frameworks for the comparative analysis of major powers. Assumptions and empirical results. Interaction between internal and external determinants. International consequences.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Politics and market globalization	The emergence, from a historical perspective, of the phenomenon of globalization and its impact on public policy. Market integration, the role of international organizations and the State.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	The United States: Public Policies	The economic, social, foreign and military policies of the United States. Theories and methods of explaining the determinants and impacts of its policies, both nationally and internationally. Relationships and comparisons between the United States and Canada.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	Synthesis: International Relations	Presentation and critical analysis of the main concepts, models, theories and approaches in the study of international relations. Review of the most important empirical studies in the field.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	International organizations	Political analysis of international organizations with a global vocation. Study of the main theoretical debates. Multilateralism and the functioning of international relations.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	African political systems	Society and political power in post-colonial Africa. Analysis of the transformations brought about by the democratization processes of the 1990s. Contributions and limitations of transition and consolidation theories.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	The State and social regulation	The place of the State in social regulation. State institutional forms implemented in the field of social policy, labor relations and the stability of the organization of social and political relations.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	Cities and public policies	Main theories of urban governance. Management models for cities and metropolitan areas in Canada, the United States and Europe. Processes, controversies and actors of urban public policies.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	Elections	Analysis of voting as a dependent variable (its political, sociological and economic determinants) and as an independent variable (the impact of elections on government policies and economic cycles).	i-SU	
Fac. Arts et sciences	Science politique	CSUP	Peacebuilding	Post-conflict reconstruction theories; peacebuilding, priorities and paradoxes; civil-military relations and local ownership of processes; power sharing, development and transitional justice.	i-SU	
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	CSUP	Adult learning difficulties	Identification of types and levels of learning difficulties. Contextualization of the problem: learner, environment, issues. Factors of failure, success. Intervention models and new andragogical challenges.	i-SU	
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Dynamics of cooperation	Actors and approaches. State	i-SU	
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Project management and cooperation	Project management approached through models inspired by various fields of activity: process, adaptation to cultural particularities, strengths and limitations of various models. Alternative practices.	i-SU	

Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Conflicts, peace, cooperation and development	Development cooperation issues and policies in situations of fragile states, armed conflicts, post-conflict and peacebuilding processes. Conflict analysis, stakeholder roles, case studies.	i-SU	
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Governance, corruption and development	Governance and social, economic and political process of a country. Concepts, actors and issues. The problem of corruption. Capacity building of governance actors. Action strategies and the role of development workers.	i-SU	
Fac. Arts et sciences	Psychoéducation	1CYC	Normal development 6-18 years	Normal emotional, cognitive and social development of children and adolescents aged 6-18 years. Development theories. Ecological perspective.	i-SU	
Fac. Arts et sciences	Psychoéducation	CSUP	Social Practices and Policies	Links between research, clinical practices and social policy decision-making. Concepts and issues; collaborative models; principles of knowledge transfer and appropriation.	i-SU	
Fac. Arts et sciences	Psychoéducation	CSUP	Research and Social Policy	Links between research, clinical practice and decision-making in social policy affecting children and adolescents. Collaborative models; dissemination principles.	i-SU	
Fac. Arts et sciences	Psychoéducation	CSUP	Biology-Individual-Environment	Importance of biological factors in human development. Neuro-physiological systems and mechanisms for regulating emotions, cognitions and behaviors. Interactions genes X environment.	i-SU	
Fac. Arts et sciences	Psychologie	1CYC	Psychology of human development 1	Study of the stages and determinants of human development, from prenatal life to the school period, in its physical, intellectual and socio-emotional aspects. Theoretical approaches and contemporary research.	i-SU	
Fac. Arts et sciences	Psychologie	1CYC	Psychology of human development 2	Study of the stages and determinants of human development, from adolescence to old age, in its physical, intellectual and socio-emotional aspects. Theoretical approaches and contemporary research.	i-SU	
Fac. Arts et sciences	Psychologie	1CYC	Social and cognitive development 0-5 years	Major current empirical trends in social and cognitive development in early childhood. Parenting practices and attachment. Family, biological and cognitive influences on social-emotional development.	i-SU	
Fac. Arts et sciences	Psychologie	1CYC	Forensic Psychology	Study of the interface between psychology and law. The psychologist's roles in the judicial system: in the investigation, in the court of justice, during incarceration and during social reintegration.	i-SU	
Fac. Arts et sciences	Psychologie	CSUP	Psychopathology: children and adolescents	To become familiar with child and adolescent psychopathology from a developmental perspective. Integrate empirical knowledge on bio-psycho-social risk factors and treatments.	i-SU	
Fac. de médecine vétérinaire	Pathologie et microbiologie	1CYC	Veterinary Ichthyopathology	Veterinary diagnostic and therapeutic approaches to freshwater fish diseases in fish farms and in the wild.	i-SU	
Fac. Arts et sciences	Relations industrielles	1CYC	Institutional Economic Outlook	Contextual Data, Economic and Forecast Analysis of GDP and Employment. Fiscal and financial policies and institutions for the regulation of the economy. Inflation and wages. Sustainable development and wealth creation.	i-SU	
Fac. Arts et sciences	Relations industrielles	1CYC	Occupational Health and Well-being	Scope, Determinants and Prevention of Occupational Health and Well-being Problems. Health promotion practices. Interventions with employees in difficulty. Employee assistance programs.	i-SU	
Fac. Arts et sciences	Relations industrielles	1CYC	Globalization and labor	Impacts of globalization on labor: analytical tools, comparisons of regimes and types of society (North and South). Articulation of regulation sources. Strategies for the internationalization of actors (companies, trade unions, states, NGOs).	i-SU	
Fac. Arts et sciences	Relations industrielles	CSUP	International perspectives on HRM	Globalization phenomenon; human resources management strategies, practices and labor relations in a context of globalization; codes of conduct; international social organizations and standards; case study.	i-SU	
Fac. Arts et sciences	Relations industrielles	CSUP	Partnership and Social Dialogue	Studies of the various forms of social dialogue and labor-management and multi-stakeholder partnership in Quebec and elsewhere in the world.	i-SU	
Fac. Arts et sciences	Relations industrielles	CSUP	International perspectives on employment policies	Studies on employment policies in the face of new economic challenges, in an international comparative perspective.	i-SU	
Faculté de pharmacie	Direction Pharmacie	1CYC	Development of the drug 4	Design and elaboration of a Phase 4 estimate. Bioethics. Pharmacovigilance. Data integration: clinical, safety, Pharmacoeconomics. Regulation	i-SU	
Fac. Arts et sciences	Bibliothéconomie	CSUP	Introduction to Information Science	Basic Concepts in Information Science. Evolution of information media. Institutions, professionals, associations, workplaces, ethics. Information and society: social and economic contexts.	i-SU	
Fac. Arts et sciences	Bibliothéconomie	CSUP	Public Libraries	History, Mission, Legislation and Social Role. Statistics, standards and organizational structures. Policy environment and networks. Financing. Services. Urban and rural areas. Architecture, development. Future.	i-SU	
Fac de sciences infirmières	Direction Sc. infirmières	CSUP	Health Ethics and Nursing Practice	Ethical and Methodological Benchmarks for Identifying, Analyzing and Addressing Ethical Issues in Advanced Practice in Collaboration with Individuals, Families and Practitioners from Other Disciplines.	i-SU	
Fac de sciences infirmières	Direction Sc. infirmières	CSUP	Community	Population Interventions	i-SU	
Fac. Arts et sciences	Sociologie	1CYC	Economy and societies	Social forms of economy in history. The advent of the industrial society; historical sociology of the economy and societies of Marx, Durkheim and Weber; the emergence of the State, class relations, the labor movement and trade unionism.	i-SU	
Fac. Arts et sciences	Sociologie	1CYC	Sociology of work	Evolution of production processes. Analysis of manpower training. Concomitant evolution of the workers' movement: class composition, conflicts and relations to political systems.	i-SU	
Fac. Arts et sciences	Sociologie	1CYC	International development	Theoretical trends in development sociology, history of development policies in the countries of the South. Context of globalization and anti-globalization, new debates and new social issues in the field of development.	i-SU	
Fac. Arts et sciences	Sociologie	1CYC	Youth sociology	Basic theories in youth sociology. Youth and integration into the world of work. Youth and institutions. Youth and social, political and economic issues.	i-SU	
Fac. Arts et sciences	Sociologie	CSUP	Labor, trade unionism and globalization	Transformation of work and trade unionism in the era of globalization. Presentation of the approaches used in the social sciences to analyze this transformation. Case studies, both in northern and southern countries.	i-SU	
Fac. de médecine vétérinaire	Pathologie et microbiologie	CSUP	Zoonoses and SPV problems	Main concepts of communicable infectious disease epidemiology; knowledge of the main zoonoses and their ecology; monitoring of wildlife zoonoses.	i-SU	
Fac. de médecine vétérinaire	Pathologie et microbiologie	CSUP	Economics of human and animal health	Introduction to the concepts of economics of human and animal health at the national and international levels. Economic impacts of SPV issues. Use of economic analysis tools in the decision-making process in SPV.	i-SU	

Fac. de médecine vétérinaire	Pathologie et microbiologie	CSUP	Global Health and SPV	Introduction to the particularities of SPV issues in an international development context. International development theories. Main international organizations involved in veterinary public health.	i-SU	
Fac. Arts et sciences	École de travail social	CSUP	International Social Work	Analysis of the social, economic and political forces underlying different models of international social development and associated social work practices.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Planning theory and urban planning	Historical perspective on planning theories and practices. Theories of planning and urban development. The place, role and methodological, ethical and political issues of urban planning in urban planning. Remarks: The objects and objectives of planning. The place and role of planning in the evolution of urban planning trends, models and practices. The potential and actual contributions of planning theories to urban planning. The contribution of urban planning to planning theories. Contemporary debates in the field of urban planning theories and their imperatives	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Environmental analysis and urban design	Object, approaches and criteria for urban design. Methods of environmental and site analysis: natural and built elements, traces and alignments, landscape. Processes and methods for designing, producing and evaluating an urban design project. Remarks: Exploration and application of analytical methods at different scales (plot, block, neighborhood, etc.) and in different contexts of intervention (city center, old district, industrial wasteland, suburban district, etc.) intended to feed an urban design exercise. Case studies and applications.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	International housing finance	Public policies for financing urban housing (housing, equipment and infrastructure) in developing countries. Programs of financial institutions and international NGOs in housing finance, including social housing, in developing countries. Notes: Comparative analysis of policies and programs. Review of the scope and limitations of policies and programs. Development of specific know-how for the design of public policies in the field of housing and social housing in particular. Learning and implementation of program evaluation criteria based on case studies.	i-SU	
École de santé publique	Gestion / éval./ pol. de santé	CSUP	Fundamentals of Global Health	Presentation of global health concepts and theoretical frameworks. The course will examine the link between global health and development, as well as transnational determinants of health in a globalized world.	i-SU	
Fac. de médecine vétérinaire	Biomédecine vétérinaire	1CYC	Veterinary management of livestock 1	Veterinary organization and management of livestock production in agro-ecosystems. Importance of the pet industry in urban areas.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Advanced Construction in Landscape Architecture	Development of Creative Skills in Landscape Construction. Environmental dimensions of manufacturing processes, materials and technological advances in the field of construction in landscape architecture.	i-SU	
Faculté Aménagement	Architecture	1CYC	Architecture and urban strategies	Deepening knowledge of architecture in relation to the history of the transformation of urban space: relations between the architectural object, societies, cultures and theories, natural and built environments. Notes: A recommendation from the Canadian Architectural Certification Board (CACB) is required to qualify for this course as a free student.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Political Foundations	Introduction to the contributions of political science to the study of political communication and, more particularly, of the actors and institutions at the heart of democratic systems. Notes: This course is offered by the Department of Political Science.	i-SU	
Fac. de médecine vétérinaire	Biomédecine vétérinaire	1CYC	Veterinary ethics and animal welfare	Ethical theories and application of ethical principles to the veterinary context. Physical and psychological aspects of animal welfare. Methods for assessing animal welfare.	i-SU	
Fac. Arts et sciences	Géographie	CSUP	Critical geography	Political ecology and critical geography. Analysis of some of the major problems, particularly environmental problems, that societies encounter in the management of their territories.	i-SU	
Faculté de musique	Direction Musique	1CYC	History of contemporary music	History of the musical language of the second half of the 20th century in relation to its socio-cultural context.	i-SU	
Fac. Arts et sciences	Démographie	CSUP	Demographic analysis 2	Methods of analysis of cross-sectional data with application to mortality, fertility, nuptiality and migration. Complex demographic tables. Decomposition of demographic indices. Population models. Estimates and projections. Leslie's matrix.	i-SU	
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Religions, modernity and ethics	Definition of modernity and postmodernity. Their effects on religions, ethics, relationships. Positive and critical reactions of religions to (post-)modernity. Multidisciplinary approach and comparison of different schools of thought.	i-SU	
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Theological Ethics	Elements of Theological Ethics: History, Sources, Debates, Contemporary Approaches. Study of classics and various currents. Building links between current student issues and the theological tradition.	i-SU	
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Theology and social issues	Theological perspectives on social and political issues. Contexts d'élaboration, history and current state of contextual and liberation theologies. Itinerary of these traditions in Quebec and the collective practices related to them.	i-SU	
Fac. Sciences de l'éducation	Didactique	CSUP	Didactics of history	Historical discipline, history teaching and citizen education. Departmental programs and documents. Teaching scenarios.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	1CYC	Urbanization and globalization	History of urbanization in the world. Globalization and urbanization. Contemporary models of urbanization. The relationship between urbanization and development. Notes: The impact of capital and people mobility on urbanization. Unequal development between countries, cities and regions. Policy developments in a globalized world. Urbanization and economic development issues.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	1CYC	Urban and heritage forms	Built forms. Architectural typologies. Parcel and via ways frames, fabrics, monuments and vernacular buildings, basic and specialized buildings. Morphogenesis. Patrimonialization, urban heritage, conservation and intervention on existing buildings. Remarks: Formation and transformation of built environments. Built forms and urban landscape. Urban forms, urban planning and urban design. Patrimonialization of the urban environment. Conservation and enhancement issues and challenges. Heritage and urban project.	i-SU	

Faculté Aménagement	Urbanisme/architecture paysage	1CYC	Urban planning and mobility	Exploring the link between mobility (people, goods, information), spatial planning and urban design. History of transport, technological developments and impacts on the built environment. Relationship between mobility and lifestyles. Remarks: New mobility paradigm. Mobility and access to the city. Public transit, active and adapted. Individual and public transport. Intermodality. Case study analysis.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	1CYC	Consultation and negotiation	The public dimension of urban planning practice. Citizen participation in planning and urban development issues. Urban planning and consultation. Urban planning and public consultations. Conflict resolution in urban planning. Remarks: Organizations, modalities, techniques and processes for communication, information, consultation and negotiation of projects. The impact of citizen participation on urban planning. Case studies.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Metropolitan governance	Foundations and issues of governance systems in a metropolitan context. Analysis of the configurations of collective urban action, instruments and solutions implemented at various territorial scales in developed and emerging countries. Remarks: Organization of local actor systems and modalities of collective urban action. Categories of instruments and their role in defining and implementing various metropolitan governance configurations. Multiplicity of scales, diversity of actors and intensity of issues.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Transport and Urban Development	Exploring the links between transport and urban development from 4 dimensions: demand, supply, integration between transport and development and urban transport governance. Impact of measures modifying mobility. Remarks: Development of knowledge and know-how with a view to collaborating with the urban planner in the design and management of transport equipment and networks and in order to better integrate them into the development and management of the village	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Principles of phylogeny and systematization	Introduction to the principles, methods and applications of systematics: phylogenetic reconstruction, molecular systematics, applications in evolutionary biology, for taxonomic classification, biogeography and ecology. Notes: Active in the winter term in odd years. Cyclical course not offered in 2015-2016.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Evolution	Foundations of evolution, genealogy and coalescence, origin of life, vestiges of the past, bases of the phenotype, evolutionary forces, adaptation and acclimatization, speciation and hybridization, evo-devo, integrative vision of evolution.	i-SU	
Faculté de médecine	Microbio. infectio. et immuno.	1CYC	Ethics in microbiology and immunology	Founding principles and theories of bioethics. Research integrity issues. General and specific current topics in bioethics for students in microbiology and immunology. Equivalent course(s): BIO3002 and MCB1040.	i-SU	
Faculté de médecine	Microbio. infectio. et immuno.	1CYC	Microbial diversity	Bacterial diversity from a physiological, metabolic and genetic point of view. Taxonomy and classification systems; identification methods and bacterial systematics; bacteria of medical and fundamental interest; microbial ecology. Remarks: Practical work in relation to theoretical subjects.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Evolution and Development	This course examines the influence of development mechanisms on the evolution of plants and animals. It will cover topics such as modularity, dissociation, cooption, heterochrony and piping.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Insect systematics	Insects are the most diverse group of eukaryotic organisms in the world. During the course, their evolution, classification, and systematic methods for studying them are discussed.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Parasitism	Evolution and diversity, life cycles and development, adaptations to parasitic life, dynamics of host-parasite relationships, consequences on human and animal health, biodiversity and conservation biology, control strategies.	i-SU	
Faculté de médecine	Réadaptation	CSUP	Professionalism in Physiotherapy	Recognition and analysis of traditional and contemporary ethical issues and dilemmas in physiotherapy practice. Concepts, principles and rules of bioethics. Appropriation of the code of ethics for physiotherapists in Quebec.	i-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Progress in systematic phylogeny	Processing and interpretation of morphological and molecular data in phylogenetic analysis. Applications and uses of phylogenies in ecology, biodiversity, conservation, classification and molecular evolution.	i-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Insect systematics	Insects are the most diverse group of eukaryotic organisms in the world. During the course, their evolution, classification, and systematic methods are discussed in order to study them.	i-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Parasitism	Evolution and diversity, life cycles and development, adaptations to parasitic life, dynamics of host-parasite relationships, consequences on human and animal health, biodiversity and conservation biology, control strategies.	i-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Biogeochemistry of metals	Course on the fate of metals in the environment, and addressing aspects of reactivity, speciation, bioavailability, bioaccumulation and biomagnification along food webs.	i-SU	
École de santé publique	Gestion / éval./ pol. de santé	CSUP	Health system and population health	Presentation of a conceptual framework to describe, analyze and understand the dynamic functioning of health systems and health care systems; course s<U+0092>based on the vision d<U+0092>a public health system and l<U+0092>improving health for all	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Heritage and landscape	Enhancement of heritage in modern landscape architecture. Case study of protection and history, concepts and approaches to the conservation of the built landscape.	i-SU	
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of US in secondary school in FSL	Letter and spirit of the programs. Challenges of citizenship education. Study of teaching materials. Production of learning scenarios.	i-SU	
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of arts and culture	Artistic experiences (drama, music and	i-SU	
Fac. Arts et sciences	École de travail social	1CYC	Social policy analysis	Through the study of Quebec and Canadian social policies, analysis of theoretical-conceptual benchmarks for government intervention, both transversal and sectoral, in an evolving, critical and differentiated perspective.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Global history	Social, economic, cultural and political history of a selected regional area or international phenomenon. Theoretical approaches to the global shift in the humanities and social sciences. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	i-SU	

Fac. Arts et sciences	Direction Arts et sciences	CSUP	Risk and geopolitical analysis	Theoretical approaches and instruments for predicting and analyzing political, economic and security risks. Introduction to foresight. Case studies. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Risk and geopolitical analysis	Theoretical approaches and instruments for predicting and analyzing political, economic and security risks. Introduction to foresight. Case studies. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes and submit a minimum of two written assignments.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	European and global governance	Comparative perspectives on the European Union and international organizations. Governance of public goods in economic, environmental and security matters. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	i-SU	
Faculté Aménagement	Design	1CYC	Materials and assembly	Physical, technical, aesthetic and ecological principles of finishing materials, their assembly and implementation on site: selection process, performance evaluation and prescription for carrying out a project.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	Emerging countries	Analysis of the political, economic and social development trajectories of emerging countries, and the factors behind their differences. Examination of the impact of the growth of these countries at the national and international level.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	Policy analysis and evaluation	Principle of functioning of political institutions in Quebec, Canada and other countries. Evaluation of economic, social and environmental policies.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Lifestyle and Promotion-Prevention	This course will familiarize the student with the concepts and main theories used to better understand healthy lifestyles and behaviors at the individual level from a public health perspective.	i-SU	
École de santé publique	Médecine sociale et préventive	CSUP	Public Policy and Promotion-Prevention	This course aims to prepare the student for public health intervention aimed at creating healthy public policies.	i-SU	
Fac. Arts et sciences	Psychoéducation	CSUP	Evolutionary Perspective of Adaptation	This course enables students to understand youth adaptation to their environment from an evolutionary perspective in order to enrich their approach to intervention.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Media, Conflict and Peace	Study of the role of the media in conflicts. Analysis of reforms in the media space of societies weakened by past or ongoing conflict. Communication and journalism for peace. Review of theories, concepts and case studies.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Network theory	The description of ecological communities from the perspective of network theory, the structure of species interactions, prediction of emerging ecosystem properties, spatial dynamics and evolution of community structure. Note: It is strongly suggested to have completed the BIO2811 course before registering for this course.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	Authoritarian regimes	Main theories on the origin, resilience and collapse of authoritarian political regimes. Analysis of the role of elites, the functioning of political institutions and state-society links in these regimes.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	Social protection policies	Political and institutional foundations of social protection and income redistribution policies. Contemporary impacts and transformations of these policies in developed and developing countries.	i-SU	
Fac. Arts et sciences	Géographie	CSUP	Pyrogeography	Fire geography with a biological, atmospheric and societal perspective. Studies of the factors that contribute to the occurrence of fires at the global level and their consequences: biodiversity, carbon cycle, societal impacts.	i-SU	
Fac. Arts et sciences	Institut d'études religieuses	CSUP	History of spirituality	History of spirituality in the West and its various sources. Spiritualities in their social, cultural, political and economic contexts. Great figures of spirituality.	i-SU	
Fac. Sciences de l'éducation	Admin. et fondements de l'éduc	CSUP	Governance in Education and Ethics	In-depth study of the governance movement in the public and para-public sectors and its relationship to the New Public Management (NPM) movement. Values and responsibilities of actors in educational discourse and administrative practices. Relationship between values, theories of responsibility and theories of duties in education.	i-SU	
Faculté de droit	Direction Droit	1CYC	International labor law	Developments, sources and principles of international labor law. International Labor Organization (ILO). Fundamental principles and rights at work. Globalization, labor and international trade. Corporate social responsibility.	i-SU	
Faculté de musique	Direction Musique	CSUP	Music Audiences	Study of sociological, economic and cultural profiles of music audiences. Analysis of the dynamics that have developed in recent decades between artists and audiences attending concerts in Quebec and elsewhere.	i-SU	
Faculté de médecine	Psychiatrie et addictologie	CSUP	Patient-Physician Partnerships in Psychiatry	This course provides an update of the knowledge and practices of the partnership between patients and psychiatrists focusing on the patient's life project, environment and resources available in the health network.	i-SU	
Faculté de droit	Direction Droit	CSUP	Legal issues of financial institutions	Legal issues related to the organization, financing and operations of financial institutions. Instruments developed by international bodies, rules derived from national law and ethical dimensions. Risk management methods.	i-SU	
Faculté de droit	Direction Droit	CSUP	Rules: governance	corporate responsibility	i-SU	
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Creativity and innovation: individual and organization	Human (cognitive, affective, conative) and environmental (economic, social, cultural, cyclical) factors of creativity and innovation Motors and inductors in various disciplines	i-SU	
Fac. Arts et sciences	Histoire de l'art	1CYC	Art Economics	Fundamental Theories in Art Economics. Commercial and symbolic value of the prizes. Marketing and globalization. Art and taxation. Consumption and ethical issues. Notoriety of artists, gallery owners and collectors.	i-SU	
Fac. Arts et sciences	École de travail social	CSUP	Social problems and social policies	Knowledge of social problems in Quebec and Canada, the conditions underlying their emergence, and all actions and measures adopted by the State, from a social work perspective, to prevent, correct or mitigate their effects on the populations concerned.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Politics in Quebec	Synthesis that aims to interpret the relationships between the economic, social and political dimensions of changes in the evolution of the Quebec political system. This course focuses on the economic and social dimensions. Equivalent course(s): POL2904.	i-SU	

Fac. Arts et sciences	Science politique	1CYC	Politics and society in the Middle East	Introduction to the internal problems of Middle Eastern societies and the theoretical debates most relevant to the understanding of so-called developing countries. Equivalent course(s): POL2009.	i-SU	
Fac. Arts et sciences	Science politique	1CYC	Science policy	Science and technology as political phenomena. The role of the State in the development of knowledge and innovation. Policy instruments in industrialized countries. Equivalent course(s): POL2230.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Ecosystem ecology	The black box and the notion of ecosystem, from the organism to the biosphere. The movement and future of matter and energy in a context of global change. The role of living organisms in modern carbon, nitrogen and phosphorus flows.	i-SU	
Fac. Arts et sciences	Sciences biologiques	1CYC	Tree architecture and development methods	Global and dynamic approach to tree architecture (development sequence, organizational levels, response to the environment). Diagnostic and decision-making tool for inventories, impact studies, developments, research, etc.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Knowledge of plants and horticulture	Botanical and horticultural concepts. Identification, status, cultural requirements of taxa. Soil science, physiology, water-soil-plant relations, phytopathology, multiplication. Site analysis. Selection, planting, sustainable maintenance of plants.	i-SU	
Faculté Aménagement	Urbanisme/architecture paysage	CSUP	Applied plant ecology	Synthesis of fundamental concepts in plant ecology. Characteristics and dynamics of the major Phyto ecological complexes in Quebec. Principles and methods of standard interventions on environments. Methods of analysis and field work.	i-SU	
Faculté Aménagement	Architecture	CSUP	Ethics and management practices	Analysis of ethical considerations of the process and outcome of the development project. Analysis of the consequences of the project on society. Responsibility of the professional towards the work itself, society and the environment. Note: The student must register for both IHP6990 and AME6990 during the same term.	i-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Analysis of ecological networks	Analysis of community and ecosystem structure and dynamics through graph theory.	i-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Architecture and tree development method	Global and dynamic approach to tree architecture (development sequence, organizational levels, response to the environment). Diagnostic and decision-making tool for inventories, impact studies, developments, research, etc.	i-SU	
Faculté de médecine	Direction Médecine	1CYC	Profession MD	Clinical Ethics 3	i-SU	
Fac. Arts et sciences	Philosophie	1CYC	Principles and methods in philosophy for children	History, objectives and methods of philosophy for children. Pragmatist approach to education. Theory of emotional intelligence. Social skills. Basics of argumentation. Formation of critical thinking. Citizenship education.	i-SU	
École de santé publique	Direction (Santé publique)	1CYC	Contemporary public health	Introduction to contemporary public health (surveillance, protection, prevention and promotion, epidemiology, policy, health service organization and management, global health, common human and animal health issues)	i-SU	
École de santé publique	Direction (Santé publique)	1CYC	Global health issues	Global scope of health and global governance actors and their dynamics. Identification of the major global health challenges and the mechanisms by which the different dimensions of globalization affect health.	i-SU	
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Health of adults and the elderly	Health status data. Foundations and practices specific to the health and well-being of adults and seniors. Contemporary programs and social policies. Emerging evidence and practices. Ethical issues.	i-SU	
Faculté de médecine	Nutrition	1CYC	Public Health Nutrition	Public Health Nutrition Concepts. Population health approaches: promotion, education, awareness, community development and partnerships. Intervention planning process. Determinants of learning.	i-SU	
Fac. Arts et sciences	Institut d'études religieuses	CSUP	Encounters of monotheisms in the Middle Ages	The coexistence of monotheistic religions in the Middle Ages critically examined, with the study of complex interactions, positive and negative, between Muslims, Jews and Christians. The geocultural frameworks studied may vary.	i-SU	
Faculté Aménagement	Architecture	CSUP	Architecture and urban strategies	Deepening knowledge of architecture in relation to the history of the transformation of urban space: relations between the architectural object, societies, cultures and theories, natural and built environments.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	1CYC	The city in Asia: an urban revolution	The urban fact in Asia. Economic, political and social challenges of urbanization processes and the development of large and small cities in Asia analyzed from a multidisciplinary, comparative and critical perspective.	i-SU	
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Spaces of Indigenous Creation in Urban Settings	Indigenous creation and the ways in which Indigenous arts, design and material culture mark and animate urban spaces, how these various forms of expression contribute to Indigenous affirmation in the city.	i-SU	
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Translation and adaptation	Study of texts with particular difficulties: space constraints, cultural differences, language barriers, institutional differences, iconographic non-equivalence, among others.	i-SU	
Fac. Arts et sciences	Sciences biologiques	CSUP	Population Genetics	Population Genetics aims to understand the role of processes affecting the genetic diversity of populations. These processes represent the basis of evolution and are essential for the evolutionary interpretation of biological phenomena.	i-SU	
Fac. Arts et sciences	Science politique	CSUP	Feminist political thoughts	Analysis of the founding texts of feminist political thought (18th, 19th and 20th centuries). Study of contemporary theories, current problems and social projects to which these thoughts invite us to reflect.	i-SU	
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Constructions of Cultural Space	Analysis of the constructions of the cultural and national space in English texts. Examination of the resulting literary space; study of changes in the conception of the global, indigenous, ethnic and urban space.		edi
Fac. Arts et sciences	Anthropologie	1CYC	Anthropology of material culture	Introduction to the study of material cultures, in their sociocultural contexts of use (ethnology of the object) and outside these contexts (museums). Courses combining theory and practice, with laboratory and field exercise.		edi
Fac. Arts et sciences	Anthropologie	1CYC	Japanese Culture	Traditional Japanese culture and its context: popular religion, household, imperial system, hierarchy, importance of the group, contemporary culture.		edi
Fac. Arts et sciences	Anthropologie	1CYC	Chinese cultures and societies	Analysis of Chinese culture and society in its traditional and contemporary manifestations. The role of tradition in modern China. Traditional and current social organization (lineages, secret societies, municipalities).		edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Introduction to the Arab World 1	Geographical and social context of the Arabian Peninsula before Islam. Islam: basic principles and evolution. Main features of the Arab-Islamic community (umma). From umma to the nation states. Remarks: Course offered in French.		edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Arabic Literature	Overview of classical and modern Arabic literature (in translation). Choice adapted to the needs and interests of the students, detailed analysis of selected topics.		edi
Fac. Arts et sciences	Histoire de l'art	1CYC	Cinema of differences	Analysis of cinematographic forms, contents and expressions that are on the margins of the dominant cinema, or that, even within an instituted system, resist the norms of dominant visibility.		edi

Fac. Arts et sciences	Communication	CSUP	Intercultural Communication	This course provides a critical look at the main theories of intercultural communication. The course applies theories to organizational and public space issues and encourages reflection through empirical experience.	edi
Fac. Arts et sciences	Criminologie	1CYC	Human Rights and Criminology	Human Rights. Their impact on the functioning of the administration of justice and on criminological practice.	edi
Fac. Arts et sciences	Criminologie	1CYC	Women and the criminal question	Deviant and delinquent behavior of girls and women. Analysis of gender similarities and differences and their impact on prevention and intervention strategies.	edi
Fac. Arts et sciences	Criminologie	1CYC	Criminals and mental disorders	Critical study of the links between mental illness, social exclusion and delinquency. Criminal liability. Interventions recommended in open and closed environments.	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Criminal and mental disorders	Mental disorders and their relationship to criminal conduct. Introduction to the main classifications of mental disorders. Critical study of the links between mental illness and crime.	edi
Fac. Arts et sciences	Criminologie	CSUP	Clinical practice with victims	Training in the practice of clinical intervention with victims of crime. Study of clinical specificities, specific therapeutic issues and ethical problems raised.	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Introduction to Catalan culture	Evolution of Catalan culture in Catalonia and the Catalan Countries. Familiarization with aspects of this culture. The course is intended for those who wish to apply this knowledge to their personal interests and fields of study. Remarks: Course offered in French.	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Catalan 1 (level A1)	Communicate in simple situations. Acquisition of vocabulary, pronunciation principles and basic grammatical structures. Writing exercises. Awareness of Catalan culture. Remarks: Mixed pedagogical approaches based on communication.	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Catalan 2 (level A2)	Communicate in familiar situations. Understanding of simple readings and conversations. Compositions. Overview of the territories of Catalan language and culture. Notes: Part 1 of level B1. Mixed pedagogical approaches based on communication.	edi
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of literacy in FSL	Principles of didactics of reading and writing in L2. Low- and high-level processes. Linguistic diversity. Teaching devices, feedback, evaluation. Analysis and design of teaching materials.	edi
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of French - Allophone students in high school	Allophone students. Principles of second language didactics. Linguistic diversity in schools. Interventions, re-education and assessments in reading, writing and speaking in a second language context.	edi
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of French - Students with difficulties	Students at risk, SADD students (dysphasia, deafness, dyslexia, etc.) and learning to read and write. Adaptation and differentiation of teaching practices. Specific evaluations. Creation of material.	edi
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of French - Allophone students	Allophone students. Principles of second language didactics. Linguistic diversity in schools. Interventions, re-education and assessments in reading, writing and speaking in a second language context.	edi
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of French and linguistic diversity	Allophone students. Principles of second language didactics. Linguistic diversity in schools. Reading, writing and oral interventions in a second language context and evaluation. Teaching material.	edi
Fac. Sciences de l'éducation	Didactique	CSUP	Literature and learning disabilities	Critical analysis and design of interdisciplinary teaching	edi
Fac. Sciences de l'éducation	Didactique	CSUP	Difficulties and difficulties in learning French	State of knowledge of difficulties	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Hispanic Cinema and Literature	The relationship between cinema and literature in Spanish and Hispanic-American cultural production. Remarks: In French.	edi
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Contemporary Spanish-American literature 3	Analysis of issues specific to Caribbean literature and culture.	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Mental Health and Aging	Basic Concepts of Mental Health and the Link to Aging. Problems, prevention strategies and mental health promotion among the elderly. Mental health of natural workers. Existing mental health resources. Remarks: Course also offered at a distance. See GER2021D. Equivalent course(s): GER2021D.	edi
Fac. Arts et sciences	Histoire	1CYC	Introduction to Latin America	Latin America from the Conquest to the present day. Emphasis will be placed on internal and external forces, factors of inertia and change, and elements of unity and diversity.	edi
Fac. Arts et sciences	Histoire	1CYC	History of the Crusades	Ideology and organization of the crusades; crusade and jihad; military, economic and demographic dimensions; military orders; consequences of the crusades. Personal confrontation from Western, Byzantine and Arabic perspectives.	edi
Fac. Arts et sciences	Histoire	1CYC	The United States in the Age of Revolutions	Relations between the American, French and Haitian revolutions. Among the themes discussed were the meaning of revolution; the relationship between race, slavery, the spirit of enlightenment and the Atlantic revolutions; the creation of nationalisms.	edi
Fac. Arts et sciences	Histoire	1CYC	British North America	History of the British North American Colonies and Territories between 1776 and 1867. Economic, demographic, geopolitical, political and constitutional changes. Emphasis on social and cultural dimensions.	edi
Fac. Arts et sciences	Histoire	1CYC	Spirit and culture in Europe 1790-1820	Analysis of the mentality of Europeans during the French Revolution and the Napoleonic Empire. In these times of profound political change, what place do they give to national identity, gender and social belonging?	edi
École d'optométrie	Direction Optométrie	CSUP	Web and multimedia accessibility	Visual impairments, adaptive technologies, application and evaluation of Web and multimedia content accessibility rules, benefits of accessibility and implementation strategies in organizations.	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Youth and family	Evolution of family models. Modes of socialization of young people. Issues and challenges: separation, withdrawal from the family, placement, reconstitution, reunification. Intervention models. Interdisciplinary intervention, reference. Note: Portfolio integration.	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Rhetoric and interpretation	Theoretical and methodological tools to analyze and interpret different forms of discourse in a comparative way: literary, journalistic, historical. Examples from several cultural and linguistic traditions.	edi
Fac. Arts et sciences	Littératures/langues du monde	CSUP	Poetics	Theories and poetics of poetry. Prescription and description. Study of fundamental texts. Crises of poetics: orality and writing; non-Western literary and cultural practices; poetry and action.	edi

Fac. Arts et sciences	Direction Arts et sciences	CSUP	Ethnomuseology	Collection, documentation, functional integration of ethnological objects. Use of objects, texts, audiovisual data in the construction of cultural entities. Interpretation problems. Case studies. (UdeM)	edi
École d'optométrie	Direction Optométrie	CSUP	Visual Impairment - Multidisciplinary Approach	Description of the role of different clinical and pedagogical disciplines in the field of adaptation and rehabilitation of visual impairment. Intervention models and multidisciplinary approach.	edi
Fac de sciences infirmières	Direction Sc. infirmières	CSUP	Palliative and end-of-life care	Personal relationship to death. Warning signs of the end of life. Transition from therapeutic intervention to palliative care. Comprehensive approach to individual and family intervention. Communication at the end of life.	edi
Fac de sciences infirmières	Direction Sc. infirmières	CSUP	Partnership in Palliative and End-of-Life Care	Decision-making on end-of-life care and treatment. Reflective and interdisciplinary practice. Team	edi
Fac. Arts et sciences	Philosophie	CSUP	Continental philosophy	Study of selected themes in continental philosophy, classical (Kant and German idealism) or contemporary (Heidegger, Gadamer, hermeneutics, critical theory).	edi
Faculté de médecine	Pharmacologie et physiologie	CSUP	Specialized Pharmacology - 1st Line	Principles of Clinical Pharmacology for Advanced Nurses - 1st Line Care. Prescription and pharmacy follow-up with various clientele with common health problems or stable chronic diseases.	edi
Faculté de pharmacie	Direction Pharmacie	CSUP	The drug as a social object	Scientific, social and cultural norm that govern the use of drugs in different societies, as well as the impact of these choices on social and health dynamics.	edi
Faculté de médecine	Réadaptation	CSUP	Specialized physiotherapy approaches	Specialized physiotherapy interventions for specific populations: pediatrics, oncology, burn victims, palliative care and others.	edi
Fac. Arts et sciences	Science politique	1CYC	Canadian Political Institutions	Comparative Study of Canadian Provinces and Regions. The course uses the comparative approach to study the specificity of Canada in North America, the diversity of the societies that make up the country, and the different provincial political systems.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	ICT and special education	Development, testing and analysis of special education situations where information and communication technologies are integrated. Critical reflection. Approaches in special education using ICT.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	Adolescent and school experience	Psychosocial development of students; influence of social environments; contemporary issues of adolescence.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	Classroom management in L2	Space-time management in the primary	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	Incapacities and integration practices	Students with significant disabilities (auditory, intellectual, motor and visual). School curriculum. Products, pedagogical processes to support integration. Resources available.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	Pedagogy and students with special needs	Integration of students with special needs. Difficulties in adaptation and learning. Service models and intervention strategies.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	CSUP	Pervasive Developmental Disorders	Definition and Classification of Pervasive Developmental Disorders. Cognitive, sensory, communicative and social impacts. Etiology, evaluation, adaptation of teaching and specialized intervention with these students.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	CSUP	School Service Models	Models of Remedial Education Service in the Context of School Integration. Implementation conditions, advantages and limitations. Roles of education workers in this context.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	CSUP	Behavioral problems in school	Development of intervention skills adapted to the presence of children and adolescents with behavioral problems in the classroom. Needs assessment and testing of effective interventions.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	CSUP	Intervention Plans	Planning, facilitation, management and evaluation of an intervention plan or a service plan or a PIP (personalized intervention program) for a student with a disability or a learning or adjustment difficulty.	edi
Fac. Arts et sciences	Psychoéducation	1CYC	Know-how and intervention	The intervener in the face of inappropriate behavior. Issues, conflicts and conflict management. Help relationship skills and attitudes required. Personal and professional growth.	edi
Fac. Arts et sciences	Psychoéducation	1CYC	Autism and ID intervention	Preferred intervention modalities with young people with autism spectrum disorders and	edi
Fac. Arts et sciences	Psychoéducation	CSUP	Autism Spectrum Disorders 2	This course provides an introduction to strategies and tools for assessing autism spectrum disorders (ASD), as well as some intervention techniques.	edi
Fac. Arts et sciences	Psychoéducation	CSUP	Critique of theories of inadequacy	Historical analysis, formal criticism of explanatory theories of the development of inadequacy and methodological approaches used to verify them.	edi
Fac. Arts et sciences	Psychoéducation	CSUP	Prevention and psychosocial maladjustment	Selected questions concerning the development of psychosocial maladjustment from birth to adulthood and its prevention at different developmental periods.	edi
Fac. Arts et sciences	Psychologie	1CYC	Sexual disorders: paraphilia	Classification, description and analysis of paraphilia. Assessment of sexual deviance. Static and dynamic prediction of recidivism and dangerousness. Intervention strategies for offenders. Monitoring and control.	edi
Fac. Arts et sciences	Psychologie	CSUP	Workplace Consultation	The study of the political, psychosocial and systemic aspects of the dynamics of consultation, i.e. the establishment, maintenance and termination of the partnership between the consultant, the client and the client-system.	edi
Fac. Arts et sciences	Psychologie	CSUP	Interprofessional collaboration 1	Characteristics and concepts underlying the various professional training programs related to the health and social services network. Teamwork skills. Introduction to the partner patient approach.	edi
Fac. Arts et sciences	Psychologie	CSUP	Interprofessional collaboration 2	Patient partner approach, issues and contribution of interprofessional collaboration. Expression of professional roles in teamwork.	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	The Lusophone World	Identification and analysis of the most significant cultural phenomena in the Portuguese-speaking countries. Remarks: Course offered in French.	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Introduction to Brazilian culture	Study of the different sectors of Brazilian society (social, political and cultural life) from discovery to the present day. Remarks: Courses in French.	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Portuguese 3 (level B1.1)	Communicate in areas of personal interest. Understanding of discussions on various topics. Writings. Reading a short book. Deepening of the knowledge of the culture of the Portuguese-speaking world. Notes: Part 1 of level B1. Mixed pedagogical approaches based on communication.	edi

Fac. Arts et sciences	Littératures/langues du monde	1CYC	Portuguese-speaking theatre and cinema	Study of the main contemporary trends and authors that have marked Portuguese-speaking theatre and cinema. Relationship between theatre and cinema in Portuguese-speaking cultural productions. Practical work.		edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Culture and Society, Contemporary Quebec	Introduction to the cultural traits and socio-political problems that have characterized Quebec since 1960. Historical and ideological perspective.		edi
Fac. Arts et sciences	Institut d'études religieuses	CSUP	Islam and Modernity	Islam in the Modern World. Study of a particular theme or issue. Nationalist, modernist, reformist, Islamist movements.		edi
Fac. Arts et sciences	Criminologie	1CYC	Crimes against the person	Investigation of spousal homicide, settling scores, quarrelsome homicide, sexual crimes, armed robbery.		edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Eating disorders	Eating disorders, from normal to pathological. Etiology, symptomatology and diagnostic criteria of eating disorders. Concurrent disorders. Assessment and intervention schemes from an integrated biopsychosocial perspective.		edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Systems approach	Theoretical foundations. Concepts, relational models. Systemic intervention practices.		edi
Fac de sciences infirmières	Direction Sc. infirmières	CSUP	Systemic Perspectives - Advanced Practice	Systemic Theoretical Models Relevant to the Development of Advanced Nursing Practice with Individuals		edi
Fac. Arts et sciences	Sociologie	1CYC	Introduction to the Sociology of Quebec	Sociohistorical Analysis of Quebec: Economic, Political, Cultural and Ideological Aspects. History and current situation of sociological research in Quebec.		edi
Fac. Arts et sciences	Sociologie	1CYC	History of Social Thought	This course presents the main lines of social thought in the West that have marked the development of sociological theory, tracing the links with the social transformations of the time. Notes: Sociology students must take SOL 1013 before or at the same time as SOL 1015.		edi
Fac. Arts et sciences	Sociologie	1CYC	Culture, knowledge and ideology	This course will cover the main theories of culture in order to provide basic training: popular culture		edi
Fac. Arts et sciences	Sociologie	1CYC	Body, culture and modernity	Introduction to the study of the social, cultural and symbolic dimensions of the body. Historical perspective on the construction of modern corporal identity. Analysis of the issues related to the technoscientific transformations of the body.		edi
Fac. Arts et sciences	Sociologie	1CYC	Sociology of religions	(Re)read the classical texts of the sociology of religions from historical and literary sources, question them with regard to questions and themes that are still relevant today (death, sexuality, conversion, charisma).		edi
Fac. Arts et sciences	Sociologie	CSUP	Family and society	Study of the ideological, institutional, relational and socio-economic dimensions of the family. It will also examine changes in both family practices and kinship relationships.		edi
Fac. Arts et sciences	École de travail social	CSUP	Spousal violence and intervention	Spousal violence problem. Theories explaining the phenomenon and measuring its prevalence. Psychosocial and socio-judicial intervention models. Intervention with specific clientele.		edi
Fac. Arts et sciences	Linguistique et traduction	CSUP	Translation and society	Role of translation in identity production. Contact with cultures through translation. Translation criteria and company choice. Translation as a social discourse.		edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Violence: disciplinary approaches	Definitions of violence: aggressiveness, conflict, crime, abuse of power. Forms of social and interpersonal violence. Main explanatory theories. Towards an interdisciplinary approach.		edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Normative framework for information and the media	Legal framework for the profession, whether for the protection of the journalist (copyright, freedom of expression), the citizen (image rights, privacy, reputation) or society (fundamental freedoms, hate speech).		edi
Fac. Arts et sciences	Anthropologie	CSUP	Anthropology of consumption	Studies of various theoretical approaches to consumption as a vector of reproduction and socio-cultural transformation in the contemporary world.		edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	General history of religions	Origins, formation and development of the world's great religious traditions. Presentation according to a rigorously historical approach of the three monotheisms, the oriental religions, the indigenous religions, the crisis cults.		edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Religions, suffering and healing	Religious as a symbolic system of representing illness and managing suffering, holistic dimension of the body. Analysis of a variety of ritual and spiritual healing practices.		edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Introduction to the study of religion	This course introduces the basic concepts of the human sciences of religions: religion, sacred, profane, myth, ritual, etc. Several approaches to religious phenomena are explored using examples showing their diversity in time and space.		edi
Fac. Arts et sciences	Démographie	1CYC	Aging of populations	Basic concepts, major trends in population aging, main data sources, causes of population aging in Canada		edi
Fac. Arts et sciences	Institut d'études religieuses	1CYC	Introduction to Judaism	The history and literature of Jewish traditions. The fundamental practices of Judaism. Current trends. Its values, its beliefs, its celebrations. His relationship to the non-Jewish world. The Jewish communities of Quebec, then and now.		edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Chinese 5 (level A2.1)	Communicate in some familiar situations. Vocabulary enrichment and deepening of basic grammar. Exercises in writing and reading short texts. Conversation. Familiarization with Chinese culture. Notes: Part 1 of level A2. Mixed pedagogical approaches based on communication.		edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Chinese 6 (level A2.2)	Communicate in familiar situations. Vocabulary enrichment and deepening of basic grammar. Conversation, composition and reading of short texts. Familiarization with Chinese culture. Notes: Part 2 of level A2. Mixed pedagogical approaches based on communication.		edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Japanese 5 (level A2.2)	Communicate in familiar situations. Vocabulary enrichment and deepening of basic grammar. Conversation, composition and reading of short texts. Familiarization with Japanese culture. Notes: Part 2 of level A2. Mixed pedagogical approaches based on communication.		edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Chinese 9 (level B1.1)	Communicate in areas of personal interest. Comprehension and writing of texts, discussion on familiar topics. Deepening of the knowledge of Chinese culture. Notes: Part 1 of level B1. Mixed pedagogical approaches based on communication.		edi

Fac. Arts et sciences	Littératures/langues du monde	1CYC	Study trip	Study stay in Catalan country allowing students to have direct contact with the Catalan language and culture. Training of at least 80 hours including the writing of a residence report. Note: Obtain permission from the course leader.	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Oral and written communication level 3	To enable students with a basic knowledge of French to develop their oral and written communication skills in more elaborate exchanges and to acquire linguistic and sociocultural notions. Equivalent course(s): FRS1300, FRS1300C and FRS1301.	edi
Fac. Sciences de l'éducation	Didactique	1CYC	Didactics of French - BEAS 2	Cognitive processes. Learning difficulties	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	School-Family Cooperation, Intervention Plan	This course examines collaborative working arrangements between the school and the student's SADD student's family and discusses best practices for the development and implementation of the intervention plan.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	1CYC	Pre-project for graduates in special education	Introduction to value analysis (design approach based on engineering). Choice of a problem to be solved in special education. Elaboration of specifications for the design in adaptation.	edi
Fac. Arts et sciences	Psychoéducation	1CYC	ADHD: Psycho-educational Assessment and Intervention	Assessment and Diagnosis Process for Attention Deficit Disorder with	edi
Fac. Arts et sciences	École de travail social	1CYC	Proximity intervention	Portrait of the diversity of forms of proximity intervention carried out mainly in Quebec but also elsewhere in the world and analysis of the foundations and issues of these practices based on the principle of reaching the targeted populations.	edi
Fac. Arts et sciences	École de travail social	1CYC	Social Movements and Collective Action	Analysis of the discourses and practices of social movements and their organizations in Quebec and elsewhere. Portrait of the forms and strategies of mobilization. Issues around social conflicts and social change.	edi
Fac. Arts et sciences	Anthropologie	1CYC	Language and social gender	Analysis of the link between language and gender: a) transmission (semantics); b) negotiation and discourse (pragmatics). Relationships of domination, language and discourse. Case studies.	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	South and South-West Asia: Current Issues	Political, Social, Cultural and Economic Issues in Asian Countries. Bilateral and multilateral relations. The question of emerging powers. Special condition: the student can only register for one course acronym (A or D) for this theme. The student must participate in 36 hours of classes, 9 hours of online tutoring and coaching, and submit a minimum of two written assignments.	edi
Fac. Arts et sciences	Science politique	CSUP	Jewish political philosophy	Analysis of Jewish political thought. Study of the religious, secular and philosophical dimensions of the following themes: authority and theological-political question, belonging and community, historical politics and Zionism.	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Oral communication 3.1	To enable the student to develop and qualify his oral communication skills in more elaborate exchanges and to acquire the linguistic and socio-cultural notions specific to the level.	edi
Fac. De l'éducation permanente	Direction Éducation permanente	1CYC	Oral communication 3.2	To enable the student to develop and qualify his oral communication skills in more elaborate exchanges and to acquire the linguistic and socio-cultural notions specific to the level.	edi
Fac. Arts et sciences	Histoire	CSUP	Contemporary history of the Jews	Themes and periods of Jewish history in contemporary times. The course explores historiography while aiming to discover new interpretations of Jewish roles in Western and non-Western societies.	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Korean 1 (level A1.1)	Communicate in very simple situations. Writing and conversation exercises. Acquisition of vocabulary and very simple structures, principles of pronunciation and word formation. Awareness of Korean culture. Prerequisite: no knowledge of Korean language.	edi
Fac. Arts et sciences	Histoire	1CYC	Sexes et politique dans la France d'Ancien Régime	This course analyses the French history of the Ancien Régime from a gender perspective. Beyond the scandal and the news, he examines from sources the role and influence of power relations between the sexes on the politics of modern France.	edi
Fac. Arts et sciences	Psychoéducation	CSUP	Peer relationship difficulties	Deepening the role of peers (i.e., difficulties within the peer group and friendship relationships at risk) in the development of social and academic adjustment difficulties in childhood and adolescence.	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Jewish responses to modernity	Analysis of theories and concepts. Values and historical dimensions of his traits. Historical, philosophical, cultural and aesthetic aspects.	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	The Book and its Avatars	This course systematically reflects on all forms of the book, from papyrus to Internet publications, and on the links between them and knowledge, media and intercultural relations.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	CSUP	Pedagogical differentiation and SADD	Pedagogical differentiation and educational planning. Characteristics of at-risk and SADD students and educational service models.	edi
Fac. Arts et sciences	Littératures/langues du monde	1CYC	Arab Cinema	General introduction to Arab cinema in the diversity of its national realities: trends, prominent filmmakers, influences. Aesthetic, socio-historical and identity evolution. Historical study and analysis of the social themes of Arab cinema. Note: Course in French.	edi
Fac. Sciences de l'éducation	Psychopédagogie et andragogie	CSUP	Mental health and academic difficulties	Psychological well-being, youth mental health, child psychopathology. Academic difficulties. The most common problems for young people: anxiety, depression, obsessive-compulsive disorder, bereavement and trauma and their influence on their adaptation and academic learning. Possible educational interventions.	edi
Fac. Arts et sciences	Histoire	1CYC	State and religion in the Arab world (18th-19th centuries)	The renewal of Islam (Tajdid, islah) in the 18th and long 19th centuries gave rise to or reconfigured new states in the Ottoman and Moroccan pre-colonial and colonial spheres. This course restores the history of these movements (18th-20th centuries) to their diversity.	edi
Fac. Arts et sciences	Direction Arts et sciences	CSUP	Homelessness issues and practices	Deepening knowledge of the issues surrounding homelessness. Presentation of models and practices of intervention with populations. State of play and exchange with experts and practitioners.	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Reading in Japanese 1 (level B1)	Communicating in areas of personal and professional interest. Formal and informal language. Understanding of short texts. Deepening of the knowledge of Japanese culture. Remarks: Level B1. Mixed approaches based on analysis. Preparation for level N2 (JLPT).	edi
Fac. Arts et sciences	Direction Arts et sciences	1CYC	Speak Japanese 1 (Level B1)	Communicate in areas of personal and professional interest. Development of linguistic autonomy and oral discourse in a style that meets Japanese cultural norms. Enrichment of the knowledge of Japanese culture. Remarks: Level B1. Mixed pedagogical approaches based on communication. Preparation for level N2 (JLPT).	edi
